**The Deck of Life** Richard Ferrara, 2008-03. Inspiration for **The Deck of Life** emerged from my clinical observations of patients in my practice of dermatology and internal medicine. I became increasingly aware of the connection between the genetic code as it relates to body build, temperament, and disease predisposition. It was further observed that these factors were influenced by the patient's belief system as it relates to personal characteristics, behavior, and reactions to life's situations. This book explores this unique relationship and our inherent ability to alter these features. It confirms the truth that we have a choice and an unlimited capacity to live a life stress-free with peace, happiness, and longevity. In the pages of this enlightening book, the reader is guided to discover his dominant and sub-dominant temperament. A better understanding of ourselves enables us to play a winning hand with the cards you're dealt in life. Consequently, we will make decisions more wisely in the areas of health, career choice, choosing a mate, child rearing, and the day-to-day communications and enjoyment of the people in our lives.
