**DESTINY'S JOURNEY** Olu Gans,2015-12-18 Desy was part Organic part Genetic She had been created in a lab and looked nothing like her family She hated the fact that she looked different from her brothers She grew up listening to her brothers tell a family legend that had been handed down through many generations The legend promised that someday a brilliant orb of light would appear And on that day a mystical transformation would take place A selected ancestor of days long forgotten would find a special person and together they would travel to a place beyond tomorrow Now Desy s world was about to come to an end It had been abused for too many generations and there was no longer any hope for a future As Desy sat and cried under a scraggly tree she unknowingly wrapped her fingers around a shiny stone fragment Suddenly her world spun and disappeared leaving her swirling inside a purple mist When she stopped spinning she found herself just beyond tomorrow *Destiny's Heir* Y.
