Teaching with Technology Priscilla Norton, Karin M. Wiburg, 2003 The distinctive characteristic of TEACHING WITH TECHNOLOGY Second Edition is its clear correlation between theory and practice This text focuses on ways to use technology to foster learning in K 12 classrooms instead of presenting the mechanics of computer operation Norton and Wiburg s chapters are not based on computer applications they are based instead on how technology can support student acquisition of literacy content knowledge problem solving participating in communities and student utilization of information and systems of assessment

Outdoor Learning Across the Curriculum Simon Beames, Peter Higgins, Robbie Nicol, Heidi Smith, 2023-09-14 Following the acclaim for *Learning Outside the Classroom* in 2012 this latest book more deeply explains how well

constructed outdoor learning experiences can benefit children and young people's academic development and health and wellbeing. *Outdoor Learning Across the Curriculum* outlines the theory and practice to enable preservice and experienced primary and secondary school teachers to systematically incorporate meaningful outdoor learning opportunities into their daily teaching activities in a range of environments and with diverse groups of students. Six of the chapters are substantially reworked versions of the 2012 book, two are completely reimagined and four are entirely new. Topics for developing learning and teaching outdoors include Inclusive educational design, Learning for sustainability, Community based learning, The role of student curiosity and wonder, Evidencing learning, Developing a whole school approach, Place responsive education, Integrating digital technology. With practical and engaging chapters containing aims, case studies and guidelines for practice, this timely book provides teachers the tools with which they can integrate outdoor learning into their daily timetable. It will also be a valuable resource to other professions which use the outdoors for educational purposes.
