

Language technology for humanitarian action

How collaborating on language technology development could reduce the digital language gap

Up to four billion people globally face digital or language exclusion. Developing language technology for humanitarian and development use represents a significant opportunity to reduce exclusion across the aid sector and beyond:

Technology For Humanitarian Action

Clifford Lane

Technology For Humanitarian Action:

Technology For Humanitarian Action Kevin M. Cahill, 2022 Humanitarian workers around the world struggle under dangerous conditions Yet many do not have the technological tools readily available elsewhere to help them realize their mission to provide essential services and save lives This book the fruit of a historic conference is a practical guide to current technologies that can help relief and humanitarian aid workers succeed Designed to facilitate needed technology transfer to the humanitarian sector the essays focus on areas where technology is underused and predict where new technological advances may be applied to relief efforts The essays cover essential areas communications technology and infrastructure support and security They describe how such technologies as personal identification and tagging systems software radios wireless networks and computer aided language translation can promote safety and manage large groups of people Other essays outline new technological solutions to such challenges as mine removal water purification and energy generation The contributors are Kevin M Cahill Frank Fernandez C Kumar Patel Paul J Kolodzy Joseph Mitola III Victor Zue Jaime G Carbonell Stephen Squires Joseph V Braddock Arthur L Lerner Lam Ralph James William L Warren and Regina E Dugan

The Routledge Companion to Humanitarian Action Roger Mac Ginty, Jenny H Peterson, 2015-03-24 The Companion on Humanitarian Action addresses the political ethical legal and practical issues which influence reactions to humanitarian crisis It does so by exploring the daily dilemmas faced by a range of actors including policy makers aid workers the private sector and the beneficiaries of aid and by challenging common perceptions regarding humanitarian crisis and the policies put in place to address these Through such explorations it provides practitioners and scholars with the knowledge needed to both understand and improve upon current forms of humanitarian action The Companion will be of use to those interested a range of humanitarian programmes ranging from emergency medical assistance military interventions managing refugee flows and the implementation of international humanitarian law As opposed to addressing specific programmes it will explore five themes seen as relevant to understanding and engaging in all modes of humanitarian action The first section explores varying interpretations of humanitarianism including critical historical and political economic explanations as well as more practice based explorations focused on notions needs assessments and evaluation Following this readers will be exposed to the latest debates on a range of humanitarian principles including neutrality and sovereignty before exploring the key issues faced by the main actors involved in humanitarian crisis from international NGOs to local community based organizations The final two sections address what are seen as key dilemmas in regards to humanitarian action and emerging trends in the humanitarian system including the increasing role of social media in responding to crises Whilst not a how to guide the Companion contains many practical insights for policy makers and aid workers whilst also offering analytical insights for students of humanitarian action Indeed throughout the book readers will come to the realization that understanding and improving humanitarian action simultaneously requires both active critical reflection and an acceptance of the urgency and

timeliness of action that is required for humanitarian assistance to have an impact on vital human needs Exploring a sector that is far from homogenous both practitioners and scholars alike will find the contributions of this book offers them a deeper understanding of the motivations and mechanics of current interventions but also insight into current changes and progress occurring in the field of humanitarian practice [Global report on assistive technology](#) World Health Organization, United Nations Children's Fund, 2022-05-16 Intro Foreword Acknowledgements Contributors Abbreviations Executive summary Introduction Who this report is for How this report was developed What this report contains Understanding assistive technology What is assistive technology People who need assistive technology Benefits of assistive technology Paths to accessing assistive technology Assistive technology systems and coverage International policy frameworks Measuring access to assistive technology Population access to assistive technology System preparedness for providing assistive technology System shortfalls to meet population need Identifying barriers to assistive technology Limited services Inadequate products Procurement and delivery challenges Workforce capacity gaps Market failures Governance and funding issues Sociodemographic barriers Improving the assistive technology system Policy Products Provision Personnel Preparing for assistive technology in humanitarian crises Challenges for users Reducing barriers Creating enabling environments Universal design for enabling environments Physical and digital environments Services and systems Support and attitudes Natural environment Moving forward Recommendations Actors Actions Annex References **Data Protection in Humanitarian Action** Ana Beduschi, Massimo Marelli, Aaron Martin, 2025-10-27 This book is the product of a collaboration between the data protection offices of the ICRC and UNHCR alongside the Global Privacy Assembly to reflect on a decade of progress in data protection in humanitarian contexts Through practitioner perspectives empirical research and conceptual reflections it examines how data protection underpins trust accountability and respect for affected populations serving as a crucial enabler for ethical and effective humanitarian action in the digital age The volume explores critical topics including digital transformation operational complexities such as those linked to data breaches and data sharing regulatory developments and international cooperation legal frameworks and capacity building At the same time it looks ahead addressing the challenges and opportunities posed by emerging technologies and considering how the humanitarian sector may anticipate and prepare for them This book is intended for policymakers practitioners authorities academics and other experts working in data protection international organisations and humanitarian action and adjacent fields It offers a compass to help navigate complex operational and legal challenges in an increasingly digital and data driven landscape By positioning data protection as a foundational element of humanitarian action the book provides timely forward looking insights into the sector s preparedness for technological and regulatory change with the aim of helping those most in need The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 International license *Leveraging Blockchain Technology* Shaun

Aghili,2024-11-21 Blockchain technology is a digital ledger system that allows for secure transparent and tamper proof transactions It is essentially an often decentralized distributed peer to peer database that is maintained by a network of computers instead of a single entity making it highly resistant to hacking and data breaches By providing greater security transparency and efficiency blockchain technology can help to create a more equitable and sustainable world Blockchain technology has the potential to help mankind in various ways some of which include but are not limited to Decentralization and Transparency Blockchain technology allows for decentralization of data and transactions making them more transparent and accountable This is particularly important in fields such as finance where trust and transparency are critical Increased Security Blockchain technology is inherently secure due to its distributed nature making it very difficult for hackers to compromise the system This makes it an ideal solution for data and information storage particularly in areas such as health and finance where privacy and security are of utmost importance Faster Transactions Blockchain technology eliminates the need for intermediaries reducing the time and cost associated with transactions This makes it an ideal solution for international trade remittances and other types of financial transactions especially in parts of the world where a great number of individuals do not have access to basic banking services Immutable Record One of the fundamental attributes of blockchain is its immutability Once data is added to the blockchain it becomes nearly impossible to alter or delete This feature ensures a tamper resistant and reliable record of transactions crucial for maintaining integrity in various industries including supply chain management and legal documentation Smart Contracts Blockchain technology supports the implementation of smart contracts which are self executing contracts with the terms of the agreement directly written into code This automation streamlines processes and reduces the risk of fraud particularly in sectors like real estate and legal agreements Interoperability Blockchain s ability to facilitate interoperability allows different blockchain networks to communicate and share information seamlessly This attribute is pivotal for creating a unified and interconnected ecosystem especially as various industries adopt blockchain independently Interoperability enhances efficiency reduces redundancy and fosters collaboration across diverse sectors Leveraging Blockchain Technology Governance Risk Compliance Security and Benevolent Use Cases discusses various governance risk and control GRC and operational risk related considerations in a comprehensive yet non technical way to enable business leaders managers and professionals to better understand and appreciate its various potential use cases This book is also a must read for leaders of non profit organizations allowing them to further democratize needs that we often take for granted in developed countries around the globe such as access to basic telemedicine identity management and banking services **The ^AOxford Handbook of Philosophy of Technology**

Shannon Vallor,2022-02-01 The Oxford Handbook of Philosophy of Technology gives readers a view into this increasingly vital and urgently needed domain of philosophical understanding offering an in depth collection of leading and emerging voices in the philosophy of technology The thirty two contributions in this volume cut across and connect diverse

philosophical traditions methodologies and subfields providing the reader with provocative and original insights on the history concepts problems and challenges that mark humanity's attempts to attain deeper and more lasting wisdom about our complex and evolving relationship to technology

Baking Technology, 1924 **Information and Communication Technology for Peace** Daniel Stauffacher, United Nations ICT Task Force, 2005 This report from ICT4Peace project describes the background to the project before presented some selected examples of how information technology has been used for the prevention of conflict and aid with recovery

Technology Review, 1919 Encyclopedia of Science, Technology, and Ethics Carl Mitcham, 2005 This encyclopedia considers both the professional ethics of science and technology and the social ethical and political issues raised by science and technology

Technology's War Record Massachusetts Institute of Technology. Alumni Association. War Records Committee, 1920 **Technology Review**, 1987

Technology and Development, 2006 *Science, Technology and Society*, 2000 *The Politics of Humanitarian Technology* Katja Lindskov Jacobsen, 2015-06-05 This book offers a detailed exploration of three examples of humanitarian uses of new technology employing key theoretical insights from Foucault We are currently seeing a humanitarian turn to new digital technologies such as biometrics remote sensing and surveillance drones However such humanitarian uses of new technology have not always produced beneficial results for those at the receiving end and have sometimes exposed the subjects of assistance to additional risks and insecurities Engaging with key insights from the work of Foucault combined with selected concepts from the Science and Technology Studies literature this book produces an analytical framework that opens up the analysis to details of power and control at the level of materiality that are often ignored in liberal histories of war and modernity Whereas Foucault details the design of prisons factories schools etc this book is original in its use of his work in that it uses these key insights about the details of power embedded in material design but shifts the attention to the technologies and attending forms of power that have been experimented with in the three humanitarian endeavours presented in the book In doing so the book provides new information about aspects of liberal humanitarianism that contemporary critical analyses have largely neglected This book will be of interest to students of humanitarian studies peace and conflict studies critical security studies and IR in general
