**Your Teenager Is Not Crazy** Jerusha Clark, Dr. Jeramy Clark, 2016-03-29 As God allows us to understand the mystery and marvel of brain science we have the exciting opportunity to reexamine our assumptions about human behavior Perhaps nowhere does this impact our lives more profoundly than when we think about raising children especially teenagers Where parents often see a sweet boy or girl who has morphed into an incomprehensible bundle of hormones and angst what we really ought to be seeing is an amazing young adult whose brain is under heavy construction And changing the way we see our teens will revolutionize our relationships with them Organized by what we hear teens say things like I m bored You just don t understand Why are you freaking out I hate my life or Hold on I just have to send this this book helps parents develop compassion for their teens and discernment in parenting them as their brains are progressively remodeled Rather than seeing the teen years as a time to simply hold on for dear life Dr Jeramy and Jerusha Clark show that they can be an amazing season of cultivating creativity self awareness and passion for the things that really matter
