Jiao,1999-01-01 There are two primary reasons why police auditing merits the attention of both practitioners and academicians First police auditing meets the need of police administrators to know about the economy efficiency and effectiveness of their operational programs Second police auditing provides an important tool for the public and its elected representatives to fulfill their oversight responsibilities This book provides a comprehensive view of police auditing by examining the theories standards procedures practices and evaluations of police audit The purpose of this coverage is to enable the reader to obtain a general understanding of different aspects and types of police audits and learn to apply the principles of police auditing to a particular police department This very readable book is not designed like an accounting text but instead has combined descriptions of police auditing with discussions of planned change and integrated standards and procedures of police auditing with principles of social science research to explicate a viable approach to changing the police The book is aimed at three types of readers First it is intended to provide police executives and managers with a timely and necessary

understanding of police auditing Second it serves as a valuable source of information for researchers and academicians who evaluate police programs Third students in criminal justice programs will find the book helpful in courses that address police budget review police accountability performance evaluations as well as general police organizational diagnoses *The Fireside Dickens. American Police Systems Raymond Blaine Fosdick,1920 *Hansard's Parliamentary Debates* Great Britain. Parliament,1890 **Reframing Police Education and Freedom in America** Martin Alan Greenberg,Beth Allen Easterling,2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public s safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community s trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd s murder by police have sparked new training initiatives regarding police de escalation and community engagement At the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits

This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police **The Police Journal** ,1917 *Report and Proceedings of the Senate Committee Appointed to Investigate the Police Department of the City of New York* New York (State).
