**Citizen Audience** Richard Butsch,2008-02-15 In *The Citizen Audience* Richard Butsch explores the cultural and political history of audiences in the United States from the nineteenth century to the present He demonstrates that while attitudes toward audiences have shifted over time Americans have always judged audiences against standards of good citizenship From descriptions of tightly packed crowds in early American theaters to the contemporary reports of distant anonymous Internet audiences Butsch examines how audiences were represented in contemporary discourse He explores a broad range of sources on theater movies propaganda advertising broadcast journalism and much more Butsch discovers that audiences were characterized according to three recurrent motifs as crowds and as isolated individuals in a mass both of which were considered bad and as publics which were considered ideal audiences These images were based on and reinforced class and other social hierarchies At times though subordinate groups challenged their negative characterization in these images and countered with their own interpretations A remarkable work of cultural criticism and media history this book is essential reading for anyone seeking an historical understanding of how audiences media and entertainment function in the American cultural and political imagination *Media Resistance* Trine Syvertsen,2017-04-03 This book is open access under a CC BY

peculiar paradox has evolved in American film Hollywood's children have grown up and the adults are looking and behaving more and more like children In popular films such as Harry Potter Toy Story Pocahontas Home Alone and Jumanji it is the children who are clever savvy and self sufficient while the adults are often portrayed as bumbling and ineffective Is this transformation of children into little adults an invention of Hollywood or a product of changing cultural definitions more broadly In *Coining for Capital* Jyostna Kapur explores the evolution of the concept of childhood from its portrayal in the eighteenth century as a pure innocent and idyllic state the opposite of adulthood to its expression today as a mere variation of adulthood complete with characteristics of sophistication temptation and corruption Kapur argues that this change in definition is not a media effect but rather a structural feature of a deeply consumer driven society Providing a new and timely perspective on the current widespread alarm over the loss of childhood *Coining for Capital* concludes that our present moment is in fact one of hope and despair As children are fortunately shedding false definitions of proscribed innocence both in film and in life they must now also learn to navigate a deeply inequitable antagonistic and consumer driven society of which they are both a part and a target
