Race and Theology Dr. Elaine A.

Robinson,2012-10-01 White privilege and racial injustice persist in the Church and despite a commitment to promote justice for all racism is a reality of life and has been since before the founding of our nation In addition throughout most of our nation s history theology as a discipline has remained silent about racism and at its worst overtly supported racist practices This book examines 1 what racism is and how it functions especially in the contemporary setting 2 how the United States has claimed to be God s chosen nation yet systematically disadvantages persons of color 3 how theology s silence sustains racial injustice in the Church rather than excises it and 4 how reformulating theological discourse can contribute to racial justice within ecclesial communities and the larger landscape of society The Horizons in Theology series offers brief but highly engaging essays on the major concerns and questions in theological studies Each volume addresses in a clear and concise style the scope and contours of a fundamental question as it relates to theological inquiry and application sketches the nature and significance of the subject and opens the broader lines of discussion in suggestive evocative and programmatic ways Written by senior scholars in the field and ideally suited as supplements in the classroom Horizons will be an enduring series that brings into plain language the big questions of theology It will inspire a new generation of students to eagerly embark on a journey of reflective study

How Long? How Long? : African American Women in the Struggle for Civil Rights Davis Belinda Robnett Assistant Professor of Sociology University of California,1997-06-25 A compelling and readable narrative history How Long How Long presents both a rethinking of social movement theory and a controversial thesis that chroniclers have egregiously neglected the most important leaders of the Civil Rights movement African American women in favor of higher profile African American men and white women Author Belinda Robnett argues that the diversity of experiences of the African American women organizers has been underemphasized in favor of monolithic treatments of their femaleness and blackness Drawing heavily on interviews with actual participants in the American Civil Rights movement this work retells the movement as seen through the eyes and spoken through the voices of African American women participants It is the first book to provide an analysis of race class gender and culture as substructures that shaped the organization and outcome of the movement Robnett examines the differences among women participants in the movement and offers the first cohesive analysis of the gendered relations and interactions among its black activists thus demonstrating that femaleness and blackness cannot be viewed as sufficient signifiers for movement experience and individual identity Finally this book makes a significant contribution to social movement theory by providing a crucial understanding of the continuity and complexity of social movements clarifying the need for different layers of leadership that come to satisfy different movement needs An engaging narrative history as well as a major contribution to social movement and feminist theory How Long How Long will appeal to students and scholars of social activism women s studies American history and African American studies and to general readers interested in the perennially fascinating story of the American Civil Rights movement Dueling Identities Doreen
