Think It Through:

Thinking through Thomas Merton Robert Inchausti, 2014-01-10 With the publication of *The Seven Storey Mountain* in 1948 Thomas Merton became a bestselling author writing about spiritual contemplation in a modern context Although Merton 1915-1968 lived as a Trappist monk he advocated a spiritual life that was not a retreat from the world but an alternative to it particularly to the deadening materialism and spiritual vacuity of the postwar West Over the next twenty years Merton wrote for a wide audience bringing the wisdom of Christianity Buddhism and Sufism into dialogue with the period's contemporary thought In *Thinking through Thomas Merton* Robert Inchausti introduces readers to Merton and evaluates his continuing relevance for our time Inchausti shows how Merton broke the high modernist trance so that we might become the change we wish to see in the world by refiguring the lost virtues of silence contemplation and community in a world enamored by the will to power virtuoso performance radical skepticism and materialist metaphysics Merton's defense of contemplative culture is considered in light of the postmodern thought of recent years and emerges as a compelling alternative

Thinking Through the Imagination John Kaag, 2014-02-03 Use your imagination The demand is as important as it is confusing What is the imagination What is its value Where does it come from And where is it going in a time when even the obscene seems overdone and pass This book takes up these questions and argues for the centrality of imagination in human cognition It traces the development of the imagination in Kant's critical philosophy particularly the *Critique of Aesthetic Judgment* and claims that the insights of Kantian aesthetic theory especially concerning the nature of creativity common sense and genius influenced the development of nineteenth century American philosophy The book identifies the central role of the imagination in the philosophy of Peirce a role often overlooked in analytic treatments of his thought The final chapters pursue the observation made by Kant and Peirce that imaginative genius is a type of natural gift ingenium and must in some way be continuous with the creative force of nature It makes this final turn by way of contemporary studies of metaphor embodied cognition and cognitive neuroscience
