Useful Adversaries:

Useful Adversaries Thomas J. Christensen, 2020-05-05 This book provides a new analysis of why relations between the United States and the Chinese Communists were so hostile in the first decade of the Cold War Employing extensive documentation it offers a fresh approach to long debated questions such as why Truman refused to recognize the Chinese Communists why the United States aided Chiang Kai shek s KMT on Taiwan why the Korean War escalated into a Sino American conflict and why Mao shelled islands in the Taiwan Straits in 1958 thus sparking a major crisis with the United States Christensen first develops a novel two level approach that explains why leaders manipulate low level conflicts to mobilize popular support for expensive long term security strategies By linking grand strategy domestic politics and the manipulation of ideology and conflict Christensen provides a nuanced and sophisticated link between domestic politics and foreign policy He then applies the approach to Truman s policy toward the Chinese Communists in 1947 50 and to Mao s initiation of the 1958 Taiwan Straits Crisis In these cases the extension of short term conflict was useful in gaining popular support for the overall grand strategy that each leader was promoting domestically Truman s limited containment strategy toward the USSR and Mao s self strengthening programs during the Great Leap Forward Christensen also explores how such low level conflicts can escalate as they did in Korea despite leaders desire to avoid actual warfare To Shape Our World for Good C. William Walldorf, Jr., 2019-06-15 Why does the United States pursue robust military invasions to change some foreign regimes but not others Conventional accounts focus on geopolitics or elite ideology C William Walldorf Jr argues that the politics surrounding two broad public narratives the liberal narrative and the restraint narrative often play a vital role in shaping US decisions whether to pursue robust and forceful regime change Using current sociological work on cultural trauma Walldorf explains how master narratives strengthen and weaken and he develops clear predictions for how and when these narratives will shape policy To Shape Our World For Good demonstrates the importance and explanatory power of the master narrative argument using a sophisticated combination of methods quantitative analysis and eight cases in the postwar period that include Korea Vietnam and El Salvador during the Cold War and more recent cases in Iraq and Libya The case studies provide the environment for a critical assessment of the connections among the politics of master narratives pluralism and the common good in contemporary US foreign policy and grand strategy Walldorf adds new insight to our understanding of US expansionism and cautions against the dangers of misusing popular narratives for short term political gains a practice all too common both past and present **Powerplay** Victor D. Cha, 2018-04-24 A close look at the evolution of American political alliances in Asia and their future While the American alliance system in Asia has been fundamental to the region s security and prosperity for seven decades today it encounters challenges from the growth of China based regional organizations How was the American alliance system originally established in Asia and is it currently under threat How are competing security designs being influenced by the United States and China In Powerplay Victor Cha draws from

theories about alliances unipolarity and regime complexity to examine the evolution of the U S alliance system and the reasons for its continued importance in Asia and the world Cha delves into the fears motivations and aspirations of the Truman and Eisenhower presidencies as they contemplated alliances with the Republic of China Republic of Korea and Japan at the outset of the Cold War Their choice of a bilateral hub and spokes security design for Asia was entirely different from the system created in Europe but it was essential for its time Cha argues that the alliance system s innovations in the twenty first century contribute to its resiliency in the face of China s increasing prominence and that the task for the world is not to choose between American and Chinese institutions but to maximize stability and economic progress amid Asia s increasingly complex political landscape Exploring U S bilateral relations in Asia after World War II Powerplay takes an original look at how global alliances are achieved and maintained

Lost in the Cold War John T. Downey, Thomas Christensen, Jack Downey, 2022-08-30 In 1952 John T Jack Downey a twenty three year old CIA officer from Connecticut was shot down over Manchuria during the Korean War The pilots died in the crash but Downey and his partner Richard Dick Fecteau were captured by the Chinese For the next twenty years they were harshly interrogated put through show trials held in solitary confinement placed in reeducation camps and toured around China as political pawns Other prisoners of war came and went but Downey and Fecteau s release hinged on the United States acknowledging their status as CIA assets Not until Nixon s visit to China did Sino American relations thaw enough to secure Fecteau s release in 1971 and Downey s in 1973 Lost in the Cold War is the never before told story of Downey s decades as a prisoner of war and the efforts to bring him home Downey s lively and gripping memoir written in secret late in life interweaves horrors and deprivation with humor and the absurdities of captivity He recounts his prison experiences fearful interrogations pantomime communications with his guards a 3 000 page overstuffed confession designed to confuse his captors and posing for show photographs for propaganda purposes Through the eyes of his captors and during his tours around China Downey watched the Great Leap Forward the Cultural Revolution and the drastic transformations of the Mao era In interspersed chapters Thomas J Christensen an expert on Sino American relations explores the international politics of the Cold War and tells the story of how Downey and Fecteau s families the CIA the U S State Department and successive presidential administrations worked to secure their release

In volume 1 Allan Millett however reveals that the Korean War actually began with partisan clashes two years earlier and had roots in the political history of Korea under Japanese rule 1910 1945 In volume 2 he shifts his focus to the twelve month period from North Korea s invasion of South Korea on June 25 1950 through the end of June 1951 the most active phase of the internationalized Korean War

Mao's Generals Remember Korea Xiaobing Li, Allan Reed Millett, Bin Yu, 2001 Fifty years after the Korean conflict what is a forgotten war for some Americans is an aching memory for China With over a million casualties out of the three million soldiers sent into battle that war looms as large for the People s Republic of China PRC barely a year old when North Korea invaded the South as World War II does for most other countries It was the first international war fought by the Chinese Communist regime to halt counterrevolution it was also a war that the Chinese fully expected to win by virtue of not only superiority of numbers but also their soldiers superior political quality This book presents a mosaic of memoirs by key Chinese military commanders from that war drawing not only on their personal papers but also on still classified archives and on Chinese language sources unavailable in English It offers an uncensored behind the scenes story of the Communist campaign from the decision to intervene through the truce negotiations that discloses new information on such facets of the war as strategy and tactics use of propaganda and mobilization of the Chinese population It also reveals the generals concerns about the possible use of nuclear force and the alleged use of biological and chemical weapons by the United States The book contains a wealth of new materials on the Chinese intervention including combat operations logistics political control field command and communications Among those whose recollections are recorded then acting Chief of Staff Nie Rongzhen reveals how party leadership decided on intervention Commander in Chief Peng Dehuai provides personal accounts of major battles and communications with Mao and General Yang Dezhi shares secrets of Chinese military strategy and tactics discussing how the army orchestrated each battle to contend with the better equipped UN forces The volume also features an updated short history of the PRC s conduct of the war based on Chinese sources plus rare photos from Chinese archives that put readers behind the lines from the Chinese side

Mao s Generals Remember Korea demonstrates that the PRC continues to draw military diplomatic and strategic lessons from the war it fought fifty years ago with the world s most powerful military force It offers valuable insight into the Chinese way of war and the military mind of Mao that will be a rich resource for Asian and military scholars
