Using The Force Creativity Community And Star Wars Fans:

Using the Force Will Brooker, 2002-04-17 In this intelligent and entertaining study of fandom at its most intense Will Brooker examines the Star Wars phenomenon from the audience's perspective and discovers that the saga exerts a powerful influence over the social, cultural, and spiritual lives of those drawn into its myth. From a Boba Fett-loving police officer in Indiana to the webmistress of www.starwarschicks.com from an eleven-year-old boy in south London to a Baptist Church in South Carolina Brooker unearths a seemingly endless array of fans who use and interpret the saga in a number of creative ways.

Using the Force Will Brooker, 2002 *Star Wars and the History of Transmedia Storytelling* Sean Guynes, Dan Hassler-Forest, 2025-10-01 Star Wars has reached more than three generations of casual and hardcore fans alike and as a result many of the producers of franchised Star Wars texts, films, television, comics, novels, games, and more over the past four decades have been fans turned creators. Yet despite its dominant cultural and industrial positions Star Wars has rarely been the topic of sustained critical work. *Star Wars and the History of Transmedia Storytelling* offers a corrective to this oversight by curating essays from a wide range of interdisciplinary scholars in order to bring Star Wars and its transmedia narratives more fully into the fold of media and cultural studies. The collection places Star Wars at the center of those studies, projects by examining video games, novels, and novelizations, comics, advertising practices, television shows, franchising models, aesthetic and economic decisions, fandom, and cultural responses and other aspects of Star Wars and its world building in their multiple contexts of production, distribution, and reception. In emphasizing that Star Wars is both a media franchise and a transmedia storyworld *Star Wars and the History of Transmedia Storytelling* demonstrates the ways in which transmedia storytelling and the industrial logic of media franchising have developed in concert over the past four decades as multinational corporations have become the central means for subsidizing, profiting from, and selling modes of immersive storyworlds to global audiences. By taking this dual approach the book focuses on the interconnected nature of corporate production, fan consumption, and transmedia world building. As such, this collection grapples with the historical, cultural, aesthetic, and political-economic implications of the relationship between media franchising and transmedia storytelling as they are seen at work in the world's most profitable transmedia franchise.

Finding the Force of the Star Wars Franchise Matthew Kapell, John Shelton Lawrence, 2006 Textbook **Revisiting Imaginary Worlds** Mark Wolf, 2016-12-08 The concept of world and the practice of world creation have been with us since antiquity but they are now achieving unequalled prominence. In this timely anthology of subcreation studies an international roster of contributors come together to examine the rise and structure of worlds, the practice of world building, and the audience's reception of imaginary worlds. Including essays written by world builders A. K. Dewdney and Alex McDowell and offering critical analyses of popular worlds such as those of Oz, The Lord of the Rings, Star Trek, Star Wars, Battlestar Galactica, and Minecraft *Revisiting Imaginary Worlds* provides readers with a broad and interdisciplinary overview of the issues and concepts involved in imaginary worlds across

How to Read Superhero Comics and Why Geoff Klock, 2002-09-06 Superhero comic books are traditionally thought to have two distinct periods two major waves of creativity the Golden Age and the Silver Age In simple terms the Golden Age was the birth of the superhero proper out of the pulp novel characters of the early 1930s and was primarily associated with the DC Comics Group Superman Batman Green Lantern and Wonder Woman are the most famous creations of this period In the early 1960s Marvel Comics launched a completely new line of heroes the primary figures of the Silver Age the Fantastic Four Spider Man the Incredible Hulk the X Men the Avengers Iron Man and Daredevil In this book Geoff Klock presents a study of the Third Movement of superhero comic books He avoids at all costs the temptation to refer to this movement as Postmodern Deconstructionist or something equally tedious Analyzing the works of Frank Miller Alan Moore Warren Ellis and Grant Morrison among others and taking his cue from Harold Bloom Klock unearths the birth of self consciousness in the superhero narrative and guides us through an intricate world of traditions influences nostalgia and innovations a world where comic books do indeed become literature

Recent Releases Geert Hallbäck, Annika Hvithamar, 2008 The relationship between theology and film has always been a complicated one When film was invented at the end of the nineteenth century it quickly gained its place in popular culture far from the orthodoxies of the scholarly world and of the Church For the better part of the twentieth century popular cinema was considered off limits for serious studies of Bible and culture Recently however there has been a growing understanding of how the Bible is being used in popular culture not as a

historical document or as an authoritative canon but as part of the cultural intertext Cinema is a vivid example of the role and impact of the Bible in contemporary society In this well theorized collection of essays the issue is treated from several angles Using the methodology of theology the question of the alleged escapism of popular cinema is explored Using the methodology of media studies the impact of the media on religious communication is analysed And using the methodology of religious studies the influence of the cinema in the creation of new religions religious behaviour and religious institutions is investigated In addition the book offers fruitful analyses of the cinematic use of biblical themes such as Eden salvation Mary Magdalene and Jesus as well as of the cinematic application of ethical themes such as truth telling personal growth suffering the accomplishment of good and the creating of meaning for human beings
