Where Charter School Pol:

Where Charter School Policy Fails Amy Stuart Wells, 2002 In this provocative volume Amy Stuart Wells and her co authors provide evidence that the laissez faire policies of charter school reform often exacerbate existing inequalities in our schools Providing the most comprehensive critical review of charter schools to date this timely volume is based on the authors in depth study of 10 urban suburban and rural school districts and 17 diverse charter schools in California plus their analysis of other charter school studies from around the country Focusing on two central issues accountability and equity they explore how charter school policies affect the lives of children educators and parents in diverse social economic and political contexts The authors conclude that although the quality and experiences of charter schools is highly varied across different contexts the laws that allow these schools to exist fail to assure meaningful accountability Meanwhile these policies increase inequality and stratification by pushing the educational system toward privatization in terms of finance and admissions while failing to target much needed resources toward low income communities This dynamic book will help educators and policymakers develop a future policy agenda for charter school reform that will be more responsive to the needs of all children The authors for the first time make sense of the diverse and diffuse charter school movement They argue that the lack of support the absence of equity provisions in state laws and the burnout of many charter school personnel have led to the beginning of the end of this yet another school reform This book provides important lessons for all who care about public education Jean Anyon Graduate Center City University of New York [Handbook of Education Policy Research](#) Lora Cohen-Vogel, Peter Youngs, Janelle Scott, 2025-07-17 The second edition of the Handbook of Education Policy Research the largest volume published in AERA s history addresses a variety of policy and contextual issues in early childhood K 12 and postsecondary education that have received extensive empirical attention during the past 15 years With the pandemic and social turmoil as a backdrop the editors build on the breadth and depth of the first edition while expanding the scope of the project to include subjects methods theories and analyses that have contributed powerfully to the study of education policy and politics in the 2010s and 2020s The field has become more comprehensive and inclusive and the authors represent a diversity of racial ethnic and gender identities and intellectual and disciplinary orientations Most chapters come from multiple authors reflecting the multi sourced development of research in education policy since the first volume was published This compilation consists of 70 chapters and nine commentaries that map past present and future directions of the field and richly attend to critical issues of interest to students researchers policy makers and practitioners *Maximizing the Policy Relevance of Research for School Improvement* Angela M. Urlick, David E. DeMatthews, Timothy G. Ford, 2020-12-14 This book helps education researchers faculty and advanced graduate students make their research more relevant to policy for school improvement It covers U S education policy making designing research for policy relevance and engaging users to communicate findings to policymakers **Handbook of Education Policy Research** Gary Sykes, Barbara Schneider, David

N. Plank, 2012-09-10 Co published by Routledge for the American Educational Research Association AERA Educational policy continues to be of major concern Policy debates about economic growth and national competitiveness for example commonly focus on the importance of human capital and a highly educated workforce Defining the theoretical boundaries and methodological approaches of education policy research are the two primary themes of this comprehensive AERA sponsored Handbook Organized into seven sections the Handbook focuses on 1 disciplinary foundations of educational policy 2 methodological perspectives 3 the policy process 4 resources management and organization 5 teaching and learning policy 6 actors and institutions and 7 education access and differentiation Drawing from multiple disciplines the Handbook s over one hundred authors address three central questions What policy issues and questions have oriented current policy research What research strategies and methods have proven most fruitful And what issues questions and methods will drive future policy research Topics such as early childhood education school choice access to higher education teacher accountability and testing and measurement cut across the 63 chapters in the volume The politics surrounding these and other issues are objectively analyzed by authors and commentators Each of the seven sections concludes with two commentaries by leading scholars in the field The first considers the current state of policy design and the second addresses the current state of policy research This book is appropriate for scholars and graduate students working in the field of education policy and for the growing number of academic government and think tank researchers engaged in policy research For more information on the American Educational Research Association please visit <http://www.aera.net> *Education and the Mobility Turn* Kalervo N. Gulson, Colin Symes, 2018-12-18 The mobile turn in human geography sociology and cultural studies has resulted in a hitherto unparalleled focus on the critical role that mobility plays in conserving and regenerating society and culture In this instance mobility refers not just to the physical movement of goods and peoples ideas and symbols it can also be analytically applied to the technologies used to facilitate their movement One such technology is education which has yet to fall under the purview of the mobility lens something that this collection endeavours to redress Its contributing authors drawn from Canada Australia the United States and the United Kingdom explore salient issues relating to education and mobility These include studies of the career implications for academics of moving across borders the impact of university study on prison populations policy mobility and the charter school movement affect theory and policy development in Canada educational advertising on Sydney trains and stations and the employment mobile approaches to track policy development and implementation One notable feature of the mobility turn is the willingness of its adoptees to explore innovative research methods Various demonstrating the efficacy and cogency of autoethnography affect theory textual ethnography and human geography for a mobility empowered education analytics this collection is no exception This book was originally published as a special issue of *Critical Studies in Education* **Where Charter School Policy Fails** Amy Stuart Wells, 2002-09 Based on their own in depth study of 17 diverse charter schools in California and other recent studies from around the country the

authors explore how the laissez faire policy of charter schools interacts with the lives of children educators and parents in diverse social economic and political contexts **The Korean Journal of Policy Studies** ,2015 **Introduction to Education** Frank Leslie Clapp,Wayland Johnson Chase,Curtis Merriman,1929 **School Reform, Corporate Style** Dorothy Shipps,2006 Like other big city school systems Chicago s has been repeatedly reformed over the last century Yet its schools have fallen far short of citizens expectations and left a gap between the performances of white and minority students Many blame the educational establishment for resisting change Other critics argue that reform occurs too often still others claim it comes not often enough Dorothy Shipps reappraises the tumultuous history of educational progress in Chicago revealing that the persistent lack of improvement is due not to the extent but rather the type of reform Throughout the twentieth century managerial reorganizations initiated by the business community repeatedly altered the governance structure of schools as well as the relationships of teachers to children and parents but brought little improvement while other more promising reform models were either resisted or crowded out Shipps chronicles how Chicago s corporate actors led abetted or restrained nearly every attempt to transform the city s school system then asks whether schools might be better reformed by others To show why city schools have failed urban children so badly she traces Chicago s reform history over four political eras revealing how corporate power was instrumental in designing and revamping the system Her narrative encompasses the formative era of 1880 1930 when teachers unions moderated business plans previously unexplored business activism from 1930 to 1980 when civil rights dominated school reform and the decentralization of the 1980s She also covers the uneasy cooperation among business associations in the 1990s to install the mayor as head of the school system a governing regime now challenged by privatization advocates Business people may be too wedded to a stunted view of educators to forge a productive partnership for change Unionized teachers bridle at the second class status accorded them by managers If reform is to reach deeply into classrooms Shipps concludes it might well require a new coalition of teachers unions and parents to create a fresh agenda that supersedes corporate interests This study clearly shows that in Chicago as elsewhere urban schooling is intertwined with politics and power By reviewing more than a century of corporate efforts to make education work Shipps makes a strong case that it s high time to look elsewhere perhaps to educators themselves for new leadership **School Policy** Daniel Linden Duke,Robert Lynn Canady,1991 The first text to review local school policy in such vital areas as discipline curriculum personnel scheduling grouping evaluation homework and programs for at risk students Examples of local policy as a dimension of school effectiveness appear throughout the text **Historical Outline of Policy [in] New York School Legislation** Stuart Hedden,1922 [Proceedings of the Academy of Political Science](#) ,1915 **Proceedings of the Academy of Political Science in the City of New York** ,1915 **"Code of Massachusetts regulations, 2015"** ,2015 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020 **"Code of Massachusetts regulations,**
