Where's Daddy? Sally Michele Stanley, 1994 Where Is the Mango Princess? Cathy Crimmins, 2012-02-22 Humorist
Cathy Crimmins has written a deeply personal wrenching and often hilarious account of the effects of traumatic brain injury not only on the victim in this case her husband but on the family When her husband Alan is injured in a speedboat accident Cathy Crimmins reluctantly assumes the role of caregiver and learns to cope with the person he has become No longer the man who loved obscure Japanese cinema and wry humor Crimmins husband has emerged from the accident a childlike and unpredictable replica of his former self with a short attention span and a penchant for inane cartoons Where Is the Mango Princess is a breathtaking account that explores the very nature of personality and the complexities of the heart Outstanding Book Award Winner from the American Society of Journalists and Authors **Children's Language** K. E. Nelson, 2014-03-18 First published in 1983 This series Children s Language reflects the conviction that extensive work on entirely new fronts along with a great deal of reinterpretation of old front data will be necessary before any persuasive and truly orderly account of language For all volumes in the series there is a common scheme of operation with two tactics First to give authors sufficient planning time and freedom to arrive at a chapter length account of their area of thinking which vividly shows both the progress and the problems in that area with the author of each chapter free to find a workable proportion of new experimental contributions review and theory The second tactic concerns the selection of topics for each volume This is Volume 4 Structures about language and thought and children as employed in certain other fields may well be shaken and stimulated particularly in education sociology anthropology literature and language remediation Trusting What You're Told Paul L. Harris, 2012-05-25 If children were little scientists who learn best through firsthand observations and mini experiments how would a child discover that the earth is round never mind conceive of heaven as a place someone might go after death Trusting What You re Told begins by reminding us of a basic truth Most of what we know we learned from others *Edge of Sanity* Jesi Met, 2009-11 What is the distinction between reality and fiction Sanity and insanity These are the questions that twin siblings Jasmin and Herby find themselves attempting to answer Jasmin writes in an attempt to understand what is true She struggles to maintain separation between her scrambled memories and her grief stricken reality without losing herself in the process Herby tries to answer most of the unanswered questions that Jasmin s letters raise He also battles between his sanity and insanity in his efforts to gain the love and affection of his beloved sister He will eliminate any boundaries that come between him and what his heart longs for regardless of the consequences However what ails the two most is what has brought them to the mental torment they suffer Their less than normal childhoods certainly did not foster reputable adulthoods What confines Jasmin to her white prison Who are her daily noonday friends that visit her at the cusp of her reality leaning over her imagination What motivates Herby to want to destroy all those that stand in his way of pursuing his only love Will he accomplish all that his soul desperately tries to fulfill With all these unanswered questions and
