you ll need to perform in Office 97 **The Emergence of Personal Data Protection as a Fundamental Right of the EU**
Gloria González Fuster, 2014-04-28 This book explores the coming into being in European Union EU law of the fundamental
right to personal data protection Approaching legal evolution through the lens of law as text it unearths the steps that led to
the emergence of this new right It throws light on the right s significance and reveals the intricacies of its relationship with
privacy The right to personal data protection is now officially recognised as an EU fundamental right As such it is expected to
play a critical role in the future European personal data protection legal landscape seemingly displacing the right to privacy
This volume is based on the premise that an accurate understanding of the right s emergence is crucial to ensure its correct
interpretation and development Key questions addressed include How did the new right surface in EU law How could the EU
Charter of Fundamental Rights claim to render more visible an invisible right And how did EU law allow for the creation of a
new right while ensuring consistency with existing legal instruments and case law The book first investigates the roots of
personal data protection studying the redefinition of privacy in the United States in the 1960s as well as pioneering
developments in European countries and in international organisations It then analyses the EU s involvement since the 1970s
up to the introduction of legislative proposals in 2012 It grants particular attention to changes triggered in law by language
and specifically by the coexistence of languages and legal systems that determine meaning in EU law Embracing
simultaneously EU law s multilingualism and the challenging notion of the untranslatability of words this work opens up an
inspiring way of understanding legal change This book will appeal to legal scholars policy makers legal practitioners privacy
and personal data protection activists and philosophers of law as well as more generally anyone interested in how law works
