## **Work And Leisure:**

Of Time, Work, and Leisure Sebastian De Grazia, 1962 Author Sebastian De Grazia notes that modern demands have absorbed much of the extra time with the decline in hours of the workweek from 70 in 1850 to 39 and debunked the idea that productivity improvements and modern conveniences have resulted in more time away from work **Monthly Labor**

**Review**, 1980-07 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews Century of the Leisured Masses David George Surdam, 2015 American living standards improved rapidly during the twentieth century The rise of leisure both in terms of time allotted and in terms of consumption of leisure goods and services was astounding When social critic Thorstein Veblen penned *Theory of the Leisured Class* Americans were just beginning to enjoy more and better leisure In *Century of the Leisured Masses* David George Surdam explores the growing role played by leisure in the daily lives of Americans and what factors contributed to this change

Being the Aims, Efforts, and Aspirations of L.M. H. (Miss Louisa M. Hubbard.) Edwin A. Pratt, 1898 *Between Work & Leisure* Robert A. Stebbins, 2004 Occupational devotion as defined by Robert A Stebbins is a strong and positive attachment to a form of self enhancing work where the sense of achievement is high and the core activity or set of tasks is endowed with such intense appeal that the line between work and leisure is virtually erased This volume examines conditions that attract people to their work in this profound way and the many exceptional values and intrinsic rewards they realize there The author sets out by discussing people who are devoted to their occupations and describes the kinds of occupations in which such people are found the nature of their commitment to their work and the kind of values they strive to realize through work Stebbins

frames occupational devotion in four broad social contexts history religion work and leisure then considers the further subdivisions of gender social class and social character The heart of the book uses research findings on leisure to develop a powerful critique of the workaholic model Stebbins shows instead that deeply felt worker enthusiasm is devoid of addictive or coerced behavior Stebbins also explores the role of money How important is it What happens when money becomes a major if not dominant value as has happened for example in the realm of professional sports Finally he examines the social implications of the compatibility of work and serious leisure using exploratory research to identify their shared motivational factors Between Work and Leisure aims to debunk the prevailing myth that work and leisure are wholly separate and often as not mutually antagonistic spheres of life Stebbins shows that a close relationship between leisure and work offers the opportunity for people to find joy in work just as they do in leisure This volume will be of interest to those interested in work and occupations as well as those interested in the quality of their own lives Robert A Stebbins is faculty professor in the Department of Sociology at the University of Calgary Among his many books are *New Directions in the Theory and Research of Serious Leisure Exploratory Research in the Social Sciences* and *The Organizational Basis of Leisure Participation* Stebbins is a fellow of the Academy of Leisure Sciences and the Royal Society of Canada
