**Technological Nature** Peter H. Kahn, Jr., 2011-02-25 Why it matters that our relationship with nature is increasingly mediated and augmented by technology Our forebears may have had a close connection with the natural world but increasingly we experience technological nature Children come of age watching digital nature programs on television They inhabit virtual lands in digital games And they play with robotic animals purchased at big box stores Until a few years ago hunters could telehunt shoot and kill animals in Texas from a computer anywhere in the world via a Web interface Does it matter that much of our experience with nature is mediated and augmented by technology In Technological Nature Peter Kahn argues that it does and shows how it affects our well being Kahn describes his investigations of children s and adults experiences of cutting edge technological nature He and his team installed technological nature windows 50 inch plasma screens showing high definition broadcasts of real time local nature views in inside offices on his university campus and assessed the physiological and psychological effects on viewers He studied children s and adults relationships with the robotic dog AIBO including possible benefits for children with autism And he studied online telegardening a pastoral alternative to telehunting Kahn s studies show that in terms of human well being technological nature is better than no nature but not as good as actual nature We should develop and use technological nature as a bonus on life not as its

substitute and re envision what is beautiful and fulfilling and often wild in essence in our relationship with the natural world

**Ari Versluis and Ellie Uyttenbroek** Ari Versluis, Ellie Uyttenbroek, 2007 Photographer Ari Versluis and profiler Ellie Uyttenbroek have worked together since October 1994 Inspired by a shared interest in the striking dress codes of various social groups they have systematically documented numerous identities over the last 21 years Rotterdam's heterogeneous multicultural street scene remains a major source of inspiration for Ari Versluis and Ellie Uyttenbroek although since 1998 they have also worked in many cities abroad They call their series *Exactitudes* a contraction of exact and attitude By registering their subjects in an identical framework with similar poses and a strictly observed dress code Versluis and Uyttenbroek provide an almost scientific anthropological record of people's attempts to distinguish themselves from others by assuming a group identity The apparent contradiction between individuality and uniformity is however taken to such extremes in their arresting objective looking photographic viewpoint and stylistic analysis that the artistic aspect clearly dominates the purely documentary element Publisher's description **Exactitudes** Ari Versluis, Ellie Uyttenbroek, 2002 Reeksen foto's van mensen die door kleding en haardracht een bepaalde groep vertegenwoordigen *Fundamentalisms and Society* American Academy of Arts and Sciences, 1993-03-15 A systematic overview of the advances made by antiseccular religious movements over the past twenty five years and showing the impact these movements have had on human relations education women's rights and scientific research Publisher **Sustainable Development and Innovations in Marine Technologies** Petar Georgiev, Carlos Guedes Soares, 2019-08-22 Sustainable Development and Innovations in Marine Technologies includes the papers presented at the 18th International Congress of the Maritime Association of the Mediterranean IMAM 2019 Varna Bulgaria 9-11 September 2019 Sustainable Development and Innovations in Marine Technologies includes a wide range of topics Aquaculture Construction Defence Design Dynamic response of structures Degradation Defects in structures Electrical equipment of ships Human factors Hydrodynamics Legal Social aspects Logistics Machinery Marine environmental protection Materials Navigation Noise Non linear motions manoeuvrability Off shore and coastal development Off shore renewable energy Port operations Prime movers Propulsion Safety at sea Safety of Marine Systems Sea waves Seakeeping Shaft Ship resistance Shipyards Small Stability Static response of structures Structures and Wind loads The IMAM series of Conferences started in 1978 when the first Congress was organised in Istanbul Turkey IMAM 2019 is the eighteenth edition and in its nearly forty years of history this biannual event has been organised throughout Europe Sustainable Development and Innovations in Marine Technologies is essential reading for academics engineers and all professionals involved in the area of sustainable and innovative marine technologies [Slangs Dictionary of Unconventional English](#) Salim Khan Anmol, 2020-01-08 *Slangs Dictionary of Unconventional English* is a recently launched book of Sakha Global Books publication to hold good command over English language This is an excellent resource for all students who wish to learn write and speak English language from zero level Perfect for self study the series follows a guided
