Thirteen Mountain:

Maya Sacred Geography and the Creator Deities Karen Bassie-Sweet, 2014-10-22 The K'iche' Maya creation story preserved in the sixteenth century manuscript Popol Vuh describes the origin of the world and its people in a setting long assumed to be the Guatemalan central highlands. Now a scholar with a deep knowledge of Maya history shows that all of these mythological events occurred at specific locations and that this landscape was the template for the Maya worldview. Examining the primary Maya deities, Karen Bassie Sweet links geographic features to gods and beliefs. She reconstructs key elements of the Popol Vuh to argue that the three volcanoes around Lake Atitlan were the three thunderbolt gods and that the lake was the center of the world. She also shows that the Maya view of the creation of humans is centered on corn and examines core beliefs about the corn cycle to propose that the creation myth was established much earlier in Maya history than previously supposed. Generously illustrated, *Maya Sacred Geography and the Creator Deities* is a detailed ethnohistorical analysis of Maya religion, cosmology, and ritual practice that convincingly links mythology to the land. A comprehensive treatment of Maya religion, it provides an essential resource for scholars and will fascinate any reader captivated by these ancient beliefs.

The Title of Totonicapán Allen J. Christenson, 2022-11-15 This work is the first English translation of the complete text of the Title of Totonicapán, one of the most important documents composed by the K'iche' Maya in the highlands of Guatemala, second only to the Popol Vuh. The original document was completed in 1554, only a few decades after the Spanish Conquest of the K'iche' people in 1524. This volume contains a wholly new translation from the original K'iche' Maya text based on the oldest known manuscript copy rediscovered by Robert Carmack in 1973. The Title of Totonicapán is a land title written by surviving members of the K'iche' Maya nobility, a branch of the Maya that dominated the highlands of western Guatemala prior to the Spanish invasion in 1524, and it was duly signed by the ruling lords of all three major K'iche' lineages: the Kaweqib, the Nijayib, and the Ajaw K'iche's. Titles of this kind were relatively common for Maya communities in the Guatemalan highlands in the first century after the Spanish Conquest as a means of asserting land rights and privileges for its leaders. Like the Popol Vuh, the Title of Totonicapán is written in the elevated court language of the early Colonial period and eloquently describes the mythic origins and history of the K'iche' people. For the most part, the Title of Totonicapán agrees with the Popol Vuh's version of K'iche' history and cosmology, providing a complementary account that attests traditions that must have been widely known and understood. But in many instances, the Totonicapán document is richer in detail and departs from the Popol Vuh's more cursory description of history, genealogy, and political organization. In other instances, it contradicts assertions made by the authors of the Popol Vuh, perhaps a reflection of internal dissent and jealousy between rival lineages within the K'iche' hierarchy. It also contains significant passages of cosmology and history that do not appear in any other highland Maya text. This volume makes a comprehensive and updated edition of the Title of Totonicapán accessible to scholars and students in history, anthropology, archaeology, and religious studies in Latin America, as well as those

interested in Indigenous literature and Native American Indigenous studies more broadly It is also a stand alone work of Indigenous literature that provides additional K iche perspectives enhancing the reading of other colonial Maya sources
