

Understanding Language

(Ages Two to Three)

Understanding language, also known as 'receptive language', is the ability to understand spoken language and respond to it appropriately. This involves the understanding of words, sentences and questions.

Between the ages of two and three years old, toddlers may:

follow and remember a simple short story with pictures

understand and answer simple 'who', 'what' and 'where' questions

develop simple language

understand simple instructions and actions, such as 'sit on the floor' and 'pick up the toy'

play a simple game like hide-and-seek

begin to make a simple sentence, such as 'mummy is reading a book' and 'daddy is sitting on the chair'

These are the expected outcomes for children aged two to three years old. Children may reach these outcomes at different ages and in different ways. This is normal. If you are concerned about your child's language development, talk to your health professional.
