Two Front War:

Chronicles of a Two-Front War Lawrence Allen Eldridge, 2012-01-18 During the Vietnam War young African Americans fought to protect the freedoms of Southeast Asians and died in disproportionate numbers compared to their white counterparts Despite their sacrifices black Americans were unable to secure equal rights at home and because the importance of the war overshadowed the civil rights movement in the minds of politicians and the public it seemed that further progress might never come For many African Americans the bloodshed loss and disappointment of war became just another chapter in the history of the civil rights movement Lawrence Allen Eldridge explores this two front war showing how the African American press grappled with the Vietnam War and its impact on the struggle for civil rights Written in a clear narrative style *Chronicles of a Two Front War* is the first book to examine coverage of the Vietnam War by black news publications from the Gulf of Tonkin incident in August 1964 to the final withdrawal of American ground forces in the spring of 1973 and the fall of Saigon in the spring of 1975 Eldridge reveals how the black press not only reported the war but also weighed its significance in the context of the civil rights movement The author researched seventeen African American newspapers including the *Chicago Defender* the *Baltimore Afro American* and the *New Courier* and two magazines *Jet* and *Ebony* He augmented the study with a rich array of primary sources including interviews with black journalists and editors oral history collections the personal papers of key figures in the black press and government documents including those from the presidential libraries of Lyndon Johnson Richard Nixon and Gerald Ford to trace the ups and downs of U S domestic and wartime policy especially as it related to the impact of the war on civil rights Eldridge examines not only the role of reporters during the war but also those of editors commentators and cartoonists Especially enlightening is the research drawn from extensive oral histories by prominent journalist Ethel Payne the first African American woman to receive the title of war correspondent She described a widespread practice in black papers of reworking material from major white papers without providing proper credit as the demand for news swamped the small budgets and limited staffs of African American papers The author analyzes both the strengths of the black print media and the weaknesses in their coverage The black press ultimately viewed the Vietnam War through the lens of African American experience blaming the war for crippling LBJ's Great Society and the War on Poverty Despite its waning hopes for an improved life the black press soldiered on

The Myth and Reality of German Warfare Gerhard P. Gross, 2016-09-16 Surrounded by potential adversaries nineteenth century Prussia and twentieth century Germany faced the formidable prospect of multifront wars and wars of attrition To counteract these threats generations of general staff officers were educated in operational thinking the main tenets of which were extremely influential on military planning across the globe and were adopted by American and Soviet armies In the twentieth century Germany's art of warfare dominated military theory and practice creating a myth of German operational brilliance that lingers today despite the nation's crushing defeats in two world wars In this seminal study Gerhard P Gross provides a

comprehensive examination of the development and failure of German operational thinking over a period of more than a century He analyzes the strengths and weaknesses of five different armies from the mid nineteenth century through the early days of NATO He also offers fresh interpretations of towering figures of German military history including Moltke the Elder Alfred von Schlieffen and Erich Ludendorff Essential reading for military historians and strategists this innovative work dismantles cherished myths and offers new insights into Germany s failed attempts to become a global power through military means

Committee on Appropriations. Subcommittee on Interior Department, 1946 Quest for Decisive Victory Robert Michael Citino, 2002 Since the earliest days of warfare military operations have followed a predictable formula after a decisive battle an army must pursue the enemy and destroy its organization in order to achieve a victorious campaign But by the mid 19th century the emergence of massive armies and advanced weaponry and the concomitant decline in the effectiveness of cavalry had diminished the practicality of pursuit producing campaigns that bogged down short of decisive victory Great battles had become curiously indecisive decisive campaigns virtually impossible Railway Age ,1946 **Our War Too** Margaret

Paton-Walsh,2002 In the late 1930s a number of American women especially those allied with various peace and isolationist groups protested against the nation's entry into World War II While their story is fairly well known Margaret Paton Walsh reveals a far less familiar story of women who fervently felt that American intervention was absolutely necessary Paton Walsh recounts how the United States became involved in the war but does so through the eyes of American women who faced it as a necessary evil Covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women's organizations informal women's networks and even male dominated lobbying groups In the Great Debate over whether America should enter the war some women favored aid to the Allies not because they hoped for war but because they hoped aid would forestall more direct U S involvement but also because they believed war was preferable to a Nazi victory Paton Walsh shows that this activism involved some of the most prominent women of their day Elizabeth Cutter Morrow whose son in law Charles Lindbergh was an isolationist spokesman supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed her support in a national radio broadcast Soon other women joined this debate Esther Brunauer of the AAUW journalist Dorothy Thompson and organizations like the League of Women Voters and National Women's Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause Focusing on the conflict in Europe Paton Walsh shows how these women grasped the implications of the Lend Lease program for America's entry into the war but supported it nevertheless By late 1941 the Women's Division of the Fight for Freedom Committee had been established no longer merely advocating aid to Britain to keep American boys out of battle this organization supported direct American involvement in the war as a means of stopping Nazi oppression While most historians have focused on women's pacifism Paton Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs Our War Too is a story of American women trying to reconcile the irreconcilable to preserve both their principles and their peace It expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on American public opinion over the build up to the war **Resort to War** Meredith Reid
