Close Reading of Informational Sources Sunday Cummins, 2019-05-14 Given the number of well developed informational sources available to educators and students and the focus of departments of education on learning from these sources there is so much potential for students to grow as critical consumers of information Being able to read informational sources closely or watch and listen to sources carefully across all content areas creates a path for being able to understand the world better More than ever before close reading has become an essential approach with students and the informational sources they are attempting to understand In addition to addressing instruction with traditional printed texts I address how to teach for understanding of content in videos and infographics I have also developed a three phase plan for learning and a matching template for lesson planning

A poet takes another's text excises this prints over that cancels erases rearranges defaces and generally renders the original unreadable at least in its original terms What twentieth century writers and artists have meant by such appropriations and violations and how the illegible results are to be read is the subject Craig Dworkin takes up in this ambitious work Reading the Illegible explores such formal and structural manipulations in a wide range of exemplary cases John Cage's and Jackson MacLow's practices of writing through other texts the intentional cancellations of text by book artist Ken Campbell and conceptual artist Marcel Broodthaers Susan Howe's experiments in typography and cultural transmission visual complexity in Charles Bernstein Stan Brakhage and Rosemarie Waldrop the sedimentary texts of post-minimalist artist Robert Rauschenberg and poets Steve McCaffery and Christopher Dewdney the tactics of erasure employed by the poet Ronald Johnson and book artist Tom Phillips In his scrutiny of these works and with reference to a rich variety of contextual materials from popular and scientific texts to visual artworks political and cultural theories and experimental films Dworkin proposes a new way of

apprehending the radical formalism of such unreadable texts His method seeks to unveil what Dworkin describes as the politics of the poem what is signified by its form enacted by its structures implicit in the philosophy of language how it positions its reader and other questions relating to the poem as material object In doing so he exposes the mechanics and function of truly radical formalism as a practice that moves beyond aesthetic considerations into the realm of politics and ideology Thus this book asks us to reconsider poetry as a physical act and helps us to see how the range of a text's linguistic and political maneuvers depends to a great extent on the material conditions of reading and writing as well as on the mechanics of reproduction
