Twisted Conditioning Bud Jeffries,2012-04-18 Find more at www.StrongerMan.com How To Combine Barbells Strongman Training and Bodyweight Exercises for The Ultimate in Strength and Endurance Are you tired of being sold crappy training info Are you ready to get tough to do it right to achieve the results you really want Do you like to be the best you can be Are you twisted enough to believe that you can have it all Are you ready to reject conventional training and get the best Are you wary of those pushing one type of training system to the exclusion of everything else Are you ready to look into and beyond

yourself to put real effort into your training and get real results in strength and endurance Then you re looking in the right place Twisted Conditioning is a course about how to combine barbells strongman and bodyweight exercises To our knowledge it is one of the only courses written about this subject and specifically about how to combine these methods for brutally effective training You see when most people try to put together strength and endurance training they fail They either get a lopsided result of one or the other or they get mediocre results of both Why Because they don t have the experience or the know how to structure their training so they get high level results in strength and endurance at the same time Why settle for less I don t want to be limited or accept the ordinary in my training You shouldn t either That s why I wrote this course To help give you a plan to achieve your goals refuse to settle for mediocrity Most People Believe You Can t get Great Strength and Great Endurance Together at the Same Time They re Wrong It is possible and there are many examples Especially if you look into the past of the super athletes of the old time era and grapplers wrestlers and martial artists They re people who were legitimately world class in strength and endurance at the same time It s just that they knew how to combine their training in a way superior to the ideas of most modern programs and they never thought it wasn t possible They worked for it There s the thing that separates this course from all of the others It s going to give you the realities of many different types of training and how to get the best results out of all of it How to get that strength and endurance together without conflict How to make yourself the best you can be But why should you listen to me Because I Don t Think There is Anyone Else in the World Who s Done What I ve Done I m not saying this to brag on myself I m telling you this to illustrate the facts of how effective this training is and what it s allowed me to accomplish To be able to squat 1 000lbs and do 1 000 pushups and 2 000 bodyweight squats To lift and carry a 500lb rock and then do hundreds of reps of kettlebell swinging Indian club swinging sledgehammer swinging and heavy bag punching etc I have been a state regional national and world record holder and champion in drug free raw powerlifting As well as a strongman competitor Highland Games competitor Girevoy sport competitor martial artist college football player and full contact fighter All these experiences have shaped my thoughts on training and being able to have all the attributes necessary for all these different activities at the same time Very few people have been blessed enough to gain the knowledge and background of the different training regimens and routines to be able to put things together in a way you can really apply to your training To get the best out of your work To be what you want to be Because I ve been in the trenches and trained this way and done most of everything anybody wants to do then maybe I can help you achieve the goals you want There is so much to learn within its pages including 94 exercises inside
