Two Churches Robert Brentano, 1968      **Two Churches** Robert Brentano, 1968      **Two Churches** Robert Brentano, 1988-02-10

This book is not meant to be a definitive exploration of the whole of the two churches in any case. The attempt would be absurd. But the book is not meant either to be an intense exploration of certain aspects of the two churches. It is meant rather to be an extended essay about the connected differences between the two churches to use aspects as touchstones for comparison. It is meant to be a comparison of two total styles. These are not architectural styles although there is a marked and significant difference between English and Italian ecclesiastical architecture in the thirteenth century. The nonarchitectural style of the thirteenth century Italian church might in fact be called sustained Romanesque or perhaps sustained Burgundian. Comparing England or Britain with Italy in order to expose more fully one or both is not a new idea. Historians like Tacitus and Collingwood have made the comparison and so have poets like Browning and with superb intellectuality Clough. This is at least locally where angels feared to tread. The famous Venetian Anonymous wrote from the other side in his Relation of about 1500 and condensed for us his comparison in the observation that unlike the Italians the English felt no real love only lust. The spring bough and the melon flower. Collingwood's city and field, the long continuity of the difference is startlingly apparent. Explaining the continuity and perhaps there is no more difficult sort of historical explanation, its difficulty is painful to the mind is not the job that this book sets itself. But it would be dull and dishonest to ignore the fact that the continuity exists. All that this book has to say may be no more than that the thirteenth century Italian church was in fact as Browning warned a melon flower. The book may be only a gloss on amore. The symbol is more inclusive, more evocative, less guilty of excluding the essential but undefined than detailed description can be. Melon flower and amore however, fortunately for the purpose of this book, say very little about the intricate connected detail of administrative history. Collingwood's after Tacitus's city against field presses less deeply but says more. The general difference between the styles of the English and Italian churches has a great deal to do and very directly with the fact that the inhabitants of Italy were continually city dwellers and the inhabitants of Britain were essentially not. Although this book is about both England and Italy it approaches them differently. The thirteenth century Italian church is particularly in English and French practically unknown. Before it can be explained or analyzed it must be recreated, formed again in detail. The job is in part really archaeological. The outline of past existence must be uncovered. This is not at all true of the thirteenth century English church. It has been well explored. This disparity in past observation forces my book to talk much more of Italy than of England but if it is a book about one church rather than the other it is a book about England. England is meant to be seen for a change against what it was not. In this sort of profile it has a different look. England may no longer seem a country in the frozen North, incapable in the distance of responding fully to Lateran enthusiasm. Its full response to ecclesiastical government may seem clearly connected with its of course relatively full response to secular government.      *Two Churches: England & Italy in 13th*

C.68 R. Brentano, **Two churches**, 1968 *Robert Grosseteste and the 13th-Century Diocese of Lincoln* Philippa Hoskin, 2019-01-07 In this book Philippa Hoskin offers an account of the pastoral theory and practice of Robert Grosseteste bishop of Lincoln 1235-1253 within his diocese Grosseteste has been considered as an eminent medieval philosopher and theologian and as a bishop focused on pastoral care but there has been no attempt to consider how his scholarship influenced his pastoral practice Making use of Grosseteste's own writings philosophical and theological as well as pastoral and administrative Hoskin demonstrates how Grosseteste's famous interventions in his diocese grew from his own theory of personal obligation in pastoral care as well as how his personal involvement in his diocese could threaten well-developed clerical and lay networks

*The Routledge History of Medieval Christianity* R. N. Swanson, 2015-04-10 The Routledge History of Medieval Christianity explores the role of Christianity in European society from the middle of the eleventh century until the dawning of the Reformation Arranged in four thematic sections and comprising 23 originally commissioned chapters plus introductory overviews to each part by the editor this book provides an authoritative survey of a vital element of medieval history Comprehensive and cohesive the volume provides a holistic view of Christianity in medieval Europe examining not only the church itself but also its role in influence on and tensions with contemporary society Chapters therefore range from examinations of structures theology and devotional practices within the church to topics such as gender violence and holy warfare the economy morality culture and many more besides demonstrating the pervasiveness and importance of the church and Christianity in the medieval world Despite the transition into an increasingly post-Christian age the historic role of Christianity in the development of Europe remains essential to the understanding of European history particularly in the medieval period This collection will be essential reading for students and scholars of medieval studies across a broad range of disciplines

*Revival Preachers and Politics in Thirteenth Century Italy* Augustine Thompson, 2010-04-01 Recent studies of medieval preaching have tended to focus on sermon texts This is the first scholarly study in English of preaching and its social context in thirteenth century Italy Augustine Thompson O.P. both an academic and a preacher reconstructs the Great Devotion of 1233 and analyzes its devotional social political and legal elements He shows how the preachers of this revival crafted an image of divine authority that supported their intervention in factional disputes and facilitated their arbitration in social and political conflicts They exploited forms from revived Roman Law and developing city statutes in order to create flexible procedures for mediation and ultimately were able to revise communal ordinances to enshrine their message of social harmony This is a work of original scholarship carefully researched and lucidly written which is a valuable contribution to our understanding of religion and politics in the middle ages

**A People's Church** Agostino Paravicini Bagliani, Neslihan Şenocak, 2023-06-15 A People's Church brings together a distinguished international group of historians to provide a sweeping introduction to Christian religious life and institutions in medieval Italy Each essay treats a single theme as broadly as possible highlighting both the unique aspects of medieval Christianity on the Italian

peninsula and the beliefs and practices it shared with other Christian societies Because of its long tradition of communal self governance Christianity in medieval Italy perhaps more than anywhere else was truly a people s church At the same time its exceptional urban wealth and literacy rates along with its rich and varied intellectual and artistic culture led to diverse forms of religious devotion and institutions Contributors Maria Pia Alberzoni on heresy Frances Andrews on urban religion C cile Caby on monasticism Giovanna Casagrande on mendicants George Dameron on Florence Antonella Degl Innocenti on saints Marina Gazzini on lay confraternities Maureen C Miller on bishops Agostino Paravicini Bagliani and Pietro Silanos on the papacy and Italian politics Antonio Rigon on clerical confraternities Neslihan enocak on the pievi and care of souls Giovanni Vitolo on Naples
