Battles and Generals: Combat, Culture, and Didacticism in Procopius' Wars Conor Whately, 2016-03-17 In *Battles and Generals* Combat Culture and Didacticism in Procopius Wars Whately reads Procopius descriptions of combat through the lens of didacticism arguing that one of Procopius intentions was to construct those accounts not only so that they might be entertaining to his audience but also so that they might provide real value to his readership which was comprised in part of the empire's military command In the course of this analysis we discover that the varied battles and sieges that Procopius describes are not generic rather they have been crafted to reflect the nature of combat as understood by Procopius on the three fronts of Justinian's wars the frontier with Persia Vandal north Africa and Gothic Italy

Magic and Magicians in the Middle Ages and the Early Modern Time Albrecht Classen, 2017-10-23 There are no clear demarcation lines between magic astrology necromancy medicine and even sciences in the pre modern world Under the umbrella term magic the contributors to this volume examine a wide range of texts both literary and religious both medical and philosophical in which the topic is discussed from many different perspectives The fundamental concerns address issue such as how people perceived magic whether they accepted it and utilized it for their own purposes and what impact magic might have had on the mental structures of that time While some papers examine the specific appearance of magicians in literary texts others analyze the practical application of magic in medical contexts In addition this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained Magic is oddly but significantly still around us and exerts its influence Focusing on magic in the medieval world thus helps us to shed light on human culture at large
