Disturbing Practice Avner Segall,2002 Annotation Segall teacher education Michigan State U presents this critical analysis of teacher education based on a year long study of six social studies teacher trainees at the University of Western Canada The author raises questions about what and how teacher trainees learn do not learn and learn not to learn in preservice education courses how the structures discourses and practices in these courses encourage students to learn some things and not others and how typical teacher trainee courses influence the classroom choices later made by graduates when they become teachers Segall argues that traditional teacher training courses encourage compliance over true critical thinking making it difficult to produce critical teachers who provide critical education in our schools Annotation c Book News Inc Portland OR booknews com
