Slow Emergencies:

Emergency Claire Laurier Decoteau,2024-12-16 A forceful critique of how and why states failed to protect marginalized communities in their responses to the COVID 19 pandemic and the implications of ignoring the existing emergencies that exacerbated the pandemic s devastating effects The COVID 19 pandemic inaugurated a state of emergency unprecedented for most Americans Some could observe this emergency from the relative safety of their homes but those in marginalized communities without access to the same privileges were forced to risk their health and well being In *Emergency* sociologist Claire Laurier Decoteau documents and theorizes the emergencies of COVID 19 by looking at the experiences of Chicagoans and the policies that shaped their lives She describes the uneven racial impact of COVID 19 on Black and Latinx Chicagoans as a crisis within a crisis caused by a convergence of emergencies a state of emergency that protected white supremacy and wealth the slow emergencies racially marginalized populations have faced for decades due to the long term gutting of care infrastructure and deindustrialization and the sacrifice essential workers were asked to make to protect the United States economy As Decoteau shows the city s racial equity project used data to determine which communities would be given scarce resources but once positivity or death rates declined resources were retracted and redistributed elsewhere City officials thus attempted to manage these converging emergencies by manipulating epidemiological data and orchestrating systems for interpreting that data Decoteau makes clear that the emergencies precipitated by COVID 19 long predated the pandemic and that we will continue to live with their compounding crises if we do not tackle their structural underpinnings

Habit's Pathways Tony Bennett,2023-08-28 Habit has long preoccupied a wide range of theologians philosophers sociologists psychologists and neuroscientists In *Habit s Pathways* Tony Bennett explores the political consequences of the varied ways in which habit s repetitions have been acted on to guide or direct conduct Bennett considers habit s uses and effects across the monastic regimens of medieval Europe in plantation slavery and the factory system through colonial forms of rule and within a range of medicalized pathologies He brings these episodes in habit s political histories to bear on contemporary debates ranging from its role in relation to the politics of white supremacy to the digital harvesting of habits in practices of algorithmic governance Throughout Bennett tracks how habit s repetitions have been articulated differently across divisions of class race and gender demonstrating that although habit serves as an apparatus for achieving success self fulfillment and freedom for the powerful it has simultaneously served as a means of control over women racialized peoples and subordinate classes
