Two Red Shoes:

A Calculus of Angels Greg Keyes, 2015-12-22 In an alternate eighteenth century Europe devastated by alchemical disaster Sir Isaac Newton and his able assistant Benjamin Franklin confront enemies who seek humankind's destruction Sir Isaac Newton's discovery of philosopher's mercury in 1681 gave rise to a remarkable new branch of alchemical science Forty years later the world stands poised on the brink of a new dark age England is in ruins crushed by an asteroid called to Earth by the very alchemy Newton unleashed France is in chaos following the long delayed death of Louis XIV Cotton Mather Blackbeard and the Choctaw shaman Red Shoes set sail from the American colonies to investigate the silence lying over the Old World And in Russia Tsar Peter the Great now host to the evil entity that kept the Sun King alive seizes a golden opportunity for conquest as he marches his unstoppable army across a devastated continent Meanwhile Newton and his young apprentice Ben Franklin hide out in Prague awaiting the inevitable violent collision of all these disparate elements human and demonic alike while a fugitive Adrienne de Mornay de Montchevreuil pursues the secrets of the malakim and her own role in their conspiracy to obliterate humankind The second volume of the Age of Unreason series Greg Keyes's masterwork of alternate history *A Calculus of Angels* brilliantly expands the scope of the world he introduced in *Newton's Cannon* as an unforgettable cast of historical heavyweights collide on a different Earth where magic and science coexist

McKeough, Judy Lee Lupart, 2013-05-13 This unique contribution to the field of education offers a comparative look at the application of cognitive theory to instruction Six leading researchers representing the three theoretical positions which guide the study of cognition socio cultural information processing and neo Piagetian approaches discuss their theories and present empirical evidence in support of cognitively based instructional practice An introductory chapter describes the basic tenets of each tradition and its general educational posture and a concluding chapter compares the contributors views and draws implications for key educational issues These open ended discussions of the contrasts and overlaps in the various positions should stimulate readers to formulate personal opinions on cognitively based instruction **Color It True** Murray Pomerance, 2021-12-16 This often startlingly original book introduces a new way of thinking about color in film as distinct from existing approaches which tend to emphasize either technical processes and or histories of film coloration or the

meanings of color as metaphor or symbol or else part of a broader signifying system Murray Pomerance's latest meditation on cinema has the author embed himself in various ways of thinking about color not ways of framing it as a production trick or a symbolic language but ways of wondering how the color effect onscreen can work in the act of viewing Pomerance examines many issues including acuity dreaming interrelationships saturations color contrasts color and performance color as a performance aid or even performance substitute and more The lavender of the photographer's seamless in Antonioni's Blow Up taken in itself as an explosion of color worked into form and then considered both as part of the story and part of our experience The 14 chapters of this book each discuss a single primary color as regards to our experience of cinema After opening the idea of such an exploration in terms of the history of our perception and the variation in our experience that color germinates Color it True takes form
