Wurzel, Mikael Skou Andersen, Paul Tobin, 2020-12-30 This book takes an innovative approach to studying international climate governance by providing a critical analysis of climate leadership pioneership and followership across the globe The volume assesses the interactions between climate leaders pioneers and followers across multilevel and or polycentric climate governance contexts Examining the state and sub state levels in both the Global South and Global North as well as regional supranational EU and international climate governance levels the authors explore 16 countries across Asia Australasia Europe and Central and North America plus the European Union Each chapter employs a comprehensive and consistent framework for analyzing leadership and pioneership as well as followership The findings provide new insights into the strategies and actions of sub state state level and supranational leaders and pioneers This book will be of key interest to scholars students and practitioners in environmental politics and climate change governance as well as those interested in political elites EU studies and more broadly comparative politics and international relations The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Stuck in Transition** Mirlan Aldayarov, Istvan Dobozi, Thomas Nikolakakis, 2017-02-27 The large scale transformation of Kazakhstan s power sector following independence in 1991 was reflected by the country s move toward liberalizing the market and implementing sector regulation As an early adopter of a liberalized multimarket model consisting of bilateral spot balancing ancillary and capacity submarkets Kazakhstan s power sector was regarded a market reform leader among countries of the former Soviet Union having achieved a much improved supply and demand balance and service quality However despite the noteworthy headway sector reforms remain predominantly as unfinished business The excess generation capacity that was inherited from the former Soviet Union at a time when the energy only market prices were too low to attract serious investors has masked the need to reflect on the long term outlook of the country s power production As the investment crunch unfolded in the mid 2000s a diverging concern almost immediately arose that is the capacity additions of existing and planned generations may not be sufficient to keep pace with the perpetuating and significant increase in the demand for power Instead of applying market mechanisms to allow prices to rise and reflect the underlying supply and demand gap the GoK addressed the issue by implementing administrative command and control measures This study draws on the World Bank s long standing

engagement in Kazakhstan's energy sector and a number of recent technical assistance and advisory support activities. The study aims to i) objectively identify the principal challenges faced by the Kazakhstan power sector in its ongoing transition and outlining potential policy options and ii) draw lessons from Kazakhstan's experience in sector reforms for the broader international audience. The study covers broader sector issues including long term least cost power system planning, supply and demand balancing, tariff setting, market structure and integration of renewable energy.

Climate Change and Disadvantaged Communities Sk Ajim Ali, Quoc Bao Pham, Yunqing Xuan, 2025-12-09. As climate change accelerates so does the urgency to understand and address its unequal impacts. This book explores the uneven impacts of climate change and how it affects the lives and livelihoods of climate disadvantaged communities by highlighting the specific challenges they face such as heatwaves, droughts, flooding, health issues and economic losses. It explains why vulnerable populations are more at risk due to factors such as lack of infrastructure, poverty and limited access to resources. This book offers insights on conceptual frameworks to help vulnerable communities adapt and become more resilient to climate impacts. Real life examples with challenges and actionable suggestions aim to inform policymakers and the public about the urgent need for targeted initiatives. Features: Provides a comprehensive examination of how marginalized groups from indigenous populations in the Niyamgiri Hills to urban slum dwellers in Asia are disproportionately affected by climate change and what can be done to mitigate these impacts. Includes practical examples from different countries to help understand the intersection between climate change and social inequality. Utilizes advanced technologies and provides cutting edge tools such as geospatial maps and diagrams for modelling climate threats and predicting climate related challenges. Provides a roadmap for more resilient and inclusive future strategies. Highlights interdisciplinary discussions and contributions by various stakeholders to reach different audiences and offer regional problem solving opportunities. This book serves as a valuable resource for a wide audience including climate scientists, geographers, ecologists, geologists, urban planners, environmentalists, research scholars and policymakers engaged in the fields of environmental management, climate justice and sustainable development. By featuring the voices and experiences of disadvantaged communities, this book contributes meaningfully to the ongoing debates of climate justice, sustainable development and equitable adaptation pathways.

A Framework for State-level Renewable Energy Market Potential Studies Claire Kreycik, 2010. State level policymakers are relying on estimates of the market potential for renewable energy resources as they set goals and develop policies to accelerate the development of these resources. Therefore, accuracy of such estimates should be understood and possibly improved to appropriately support these decisions. This document provides a framework and next steps for state officials who require estimates of renewable energy market potential. The report gives insight into how to conduct a market potential study including what supporting data are needed and what types of assumptions need to be made. The report distinguishes between goal oriented studies and other types of studies and explains the benefits of each.
