Afele,2003 Globalization and global equity are built on the premise of peace The causes of many divisions and tensions in human communities lie in the imagined or real gain of financial or material assets of some elements of the community to be at the expense of others The global community however lacks clear definitions and methods of stability whether political economic or social Digital Bridges Developing Countries in the Knowledge Economy provides insight into the methods and theories behind the globalization of information technologies *ADB Review* ,2001 *Digital Deliverance* Judson C. Edwards,2009-08-16 This book offers a practice based approach to developing strategies for utilizing broadband telecommunications for rural economic development Edwards addresses four key questions in the publication 1 How important is broadband telecommunications in the achievement of rural economic development success in the information based economy 2 What are the critical factors in assessing the potential of rural communities to utilize broadband telecommunications for economic development 3 What policy trends are proposed to assist communities in the

advancement of telecommunication based economic development strategies And 4 How can local leadership assist in the implementation of broadband for economic development success By answering these important questions Edwards provides the reader a step by step practice oriented framework for implementing a rural economic development planning strategy through the implementation of broadband telecommunications Broadband connectivity is vital for rural communities to be actively engaged in the global information economy but being connected is not enough Utilization of technology is required if communities want to increase their potential for economic development success
