Structural Traps V, 1991 **Sedimentary Basins and Petroleum Geology of the Middle East** A.E.M. Nairn, A.S. Alsharhan, 1997-12-11 The wealth of petroleum has made the Middle East one of the most actively explored regions of the world The volume of geological geophysical and geochemical data collected by the petroleum industry in recent decades is enormous The Middle East may be a unique region in the world where the volume of subsurface data and information exceeds that based on surface outcrop This book reviews the tectonic and geological history of the Middle East and the regional hydrocarbon potential on a country by country basis in the context of current ideas developed through seismic and sequence stratigraphy and incorporating the ideas of global sea level change Subsurface data have been used as much as possible to amplify the descriptions The paleogeographic approach provides a means to view the area as a whole While the country by country approach inevitably leads to some repetition it enhances the value of the volume as a teaching tool and underlines some of the changing lithologies within formations carrying the same name Giant Hydrocarbon Reservoirs of The World Paul Mitchell Harris, L. James Weber, 2006 Reservoirs described in this volume are located in the Middle East Asia West Africa North and South America The authors explore historical and alternative approaches to reservoir description characterization and management as well as examining appropriate levels and timing of data gathering technology applications evaluation techniques and management practices in various stages in the life of individual development projects The giant fields discussed address issues important to reservoir description characterization and management from both geologic engineering perspectives *Geophysics, the Leading Edge of Exploration*, 1992-07 **Giant Oil and Gas Fields of the Decade, 1990-1999** Michel Thomas Halbouty, 2003 Accompanying CD ROM contains a table of 877 giant fields and statistical and geologic information on sedimentary province settings of giant fields Page 4 of cover China — Stratigraphy, Paleogeography and Tectonics Arthur A.
