Single-Person Close Quarters Battle Special Tactics, 2016-12-21 Military units and SWAT teams that specialize in Close Quarters Battle CQB typically bring a large force to the fight and often have numerous supporting assets such as snipers helicopters and tactical vehicles Thus the scenario of a single Soldier or SWAT officer having to operate alone is also relatively unlikely and often receives less attention However for ordinary citizens in a home defense scenario or for police officers responding to an emergency call the chances of having to operate alone are quite likely In these types of situations backup is frequently unavailable or will not arrive in time The citizens and officers who are forced to operate on their own face potentially the greatest risk yet there are almost no tactical references books videos or classes that provide useful information on the subject of single person tactics This manual and the associated training courses were developed by a team of experts with extensive special operations and law enforcement experience to help fill the dangerous capability and knowledge gap in the area of single person tactics This manual can provide citizens and officers with critical life saving tactical knowledge that will give them a marked advantage in an emergency situation The manual is designed to be short easy to read and focused on the most important information for surviving a real life emergency The manual also uses many pictures and illustrations to accelerate learning and help students absorb knowledge faster It covers a wide range of tactical subjects including Clearing without entry Shallow entry limited

penetration Deep entry Hallways Intersections Stairwells Multiple rooms The manual also provides specific suggestions on how to prepare for and deal with likely tactical scenarios including home invasion deadly attackers active shooter sniper attacks armed robbery and hostage situations
