The Last Underclass:

The Invention of the 'Underclass' Loïc Wacquant, 2022-01-28 At century's close American social scientists, policy analysts, philanthropists, and politicians became obsessed with a fearsome and mysterious new group said to be ravaging the ghetto, the urban underclass. Soon the scarecrow category and its demonic imagery were exported to the United Kingdom and continental Europe and agitated the international study of exclusion in the postindustrial metropolis. In this punchy book Loïc Wacquant retraces the invention and metamorphoses of this racialized folk devil from the structural conception of Swedish economist Gunnar Myrdal to the behavioral notion of Washington think tank experts to the neo-ecological formulation of sociologist William Julius Wilson. He uncovers the springs of the sudden irruption, accelerated circulation, and abrupt evaporation of the underclass from public debate and reflects on the implications for the social epistemology of urban marginality. What accounts for the lemming effect that drew a generation of scholars of race and poverty over a scientific cliff? What are the conditions for the formation and bursting of conceptual speculative bubbles? What is the role of think tanks, journalism, and politics in imposing turnkey problematics upon social researchers? What are the special quandaries posed by the naming of dispossessed and dishonored populations in scientific discourse and how can we reformulate the explosive question of race to avoid these troubles? Answering these questions constitutes an exacting exercise in epistemic reflexivity in the tradition of Bachelard, Canguilhem, and Bourdieu, and it issues in a clarion call for social scientists to defend their intellectual autonomy against the encroachments of outside powers, be they state officials, the media, think tanks, or philanthropic organizations. Compact, meticulous, and forcefully argued, this study in the politics of social science knowledge will be of great interest to students and scholars in sociology, anthropology, urban studies, ethnic studies, geography, intellectual history, the philosophy of science, and public policy.

Youth, The 'Underclass' and Social Exclusion Robert Macdonald, 2006-04-19 The idea that Britain, the US, and other western societies are witnessing the rise of an underclass of people at the bottom of the social heap, structurally and culturally distinct from traditional patterns of decent working class life, has become increasingly popular in the 1990s. Anti-work, anti-social, and welfare-dependent cultures are said to typify this new, dangerous class, and dangerous youth are taken as the prime subjects of underclass theories. Debates about the family and single parenthood, about crime, and about unemployment and welfare reforms have all become embroiled in underclass theories which, whilst highly controversial, have had remarkable influence on the politics and policies of governments in Britain and the US. *Youth, the Underclass and Social Exclusion* constitutes the first concerted attempt to grapple with the underclass idea in relation to contemporary youth. It focuses upon unemployment, training, the labour market, crime, homelessness, and parenting, and will be essential reading for students of social policy, sociology, and criminology.

Jack's Passion Bill Kinsella, 2019-08-13 Had he been heir to a throne, Jack Conroy could not have felt the weight of expectation more. He'll go to Wall Street just as his father did, but two things complicate the family plan. First,

Jack discovers an affinity for landscape design Second he discovers Veronica Cashmiris Jack s parents assume that Veronica is just a college infatuation that will yield to Wall Street after graduation However Veronica is no passing fancy She loves and understands Jack perhaps better than his parents do The intuition of Veronica and inclination of Jack give way to the world wise wisdom of Jack s parents But what happens to Jack turns all hopes for his future into a kind of haunting reverie It is not until Veronica gives birth to their son that hope returns

Bengal,1883 **The City Record** New York (N.Y.),1904 Coal and Coal Trade Journal,1907 *Underclass* John Welshman,2006 Who are those at the bottom of society There has been much discussion in recent years on both Left and Right about the existence of an alleged underclass in both Britain and the USA It has been claimed this group lives outside the mainstream of society is

characterised by crime suffers from long term unemployment and single parenthood and is alienated from its core values In Underclass John Welshman shows that there have always been concerns about an underclass whether constructed as the social residuum of the 1880s the problem family of the 1950s or the cycle of deprivation of the 1970s There are marked differences between these concepts but also striking continuities Indeed a concern with an underclass has in many ways been as long as an interest in poverty itself This book is the first to look systematically at the question providing new insights on contemporary debates about behaviour poverty and welfare reform
