Television Studies and Research on Series Denis Newiak, Dominik Maeder, Herbert Schwaab, 2024-07-17 Television series enjoy an unbroken popular as well as scholarly attention It is surprising however that in works on seriality in media and cultural studies approaches to television studies and television history still play a rather minor role Yet seriality should always be thought of in terms of television since the two have always been inextricably interwoven economically technically and aesthetically But what else constitutes the serial in television and how does it change its face in times of digitalization streaming and interactivity Is it possible to think of a genuine serial theory of the televisual and what in turn can be learned from this for seriality beyond television The essays in this volume contribute to shedding new light on the serial as a core principle of television and to providing new impulses for a television theory of the serial on the basis of diverse examples from the current range of television series *Media Policy* Euromedia Research Group, 1998-09-24 The European media landscape is changing profoundly In this wide ranging and timely text members of the Euromedia Research Group examine the ways in which national and supranational policy is reacting to these changes The contributors consider the consequences for broadcasting systems of satellite and cable delivery the fate of public broadcasting under deregulation the changes currently affecting print media and newspapers the impact of media changes for political and social cultural life and the significance of the Internet the first true fruit of the telematic revolution in communication The main themes of media policy analysis today are convergence concentration and commercialization and abundance through digitalization Although media policy has changed drastically in its concerns and forms the authors here argue that the need for an effective public communication policy in our information society is as pressing now as it ever was Broadcasting Yearbook, 1941 **The Mediatization of Culture and Society** Stig Hjarvard, 2013 Mediatization has emerged as a key concept to reconsider old yet fundamental questions about the role and influence of media in culture and society In particular the theory of mediatization has proved fruitful for the analysis of how media spread to become intertwined with and influence other social institutions and cultural phenomena like politics play and religion This book presents a major contribution to the theoretical

understanding of the mediatization of culture and society This is supplemented by in depth studies of The mediatization of politics From party press to opinion industry The mediatization of religion From the faith of the church to the enchantment of the media The mediatization of play From bricks to bytes The mediatization of habitus The social character of a new individualism Mediatization represents a new social condition in which the media have emerged as an important institution in society at the same time as they have become integrated into the very fabric of social and cultural life Making use of a broad conception of the media as technologies institutions and aesthetic forms Stig Hjarvard considers how characteristics of both old and new media come to influence human interaction social institutions and cultural imaginations Iowa Engineer ,1930 Philosophical Structures for Broadcasting Systems Martha Parisian,1975 *Annual Report* United States.
