medicine does not mean that we can't still use these plants to help us heal. Most people are afraid of using plants for healing because they don't understand them. Yes, some poisonous plants should not be ingested, but with the right information, you can safely use plants as medicine. Then there is the issue of not having the space to grow the herbs and plants. A lot of people live in apartments or in a house that doesn't have much of a yard. That's okay. Most of the plants are very hardy once they have been established and do very well in boxes. The most important thing is to make sure they get the light they need, and even if you don't have a south-facing window, you can use a grow light. There's no reason not to grow your plants for medicinal and culinary purposes. If you still have your doubts, don't worry; this book is here to teach you everything you need to know. You will find 30 of the most common medicinal plants and herbs and what they can help heal. How to grow herbs when your space is lacking. A quick introduction into what medicinal herbs and herbal medicine is. What you will need to have to make sure that your plants grow well. Instructions on how to make essential oils. How to create herbal infusions from your plants. The best ways to dry your herbs for storage. How to properly prepare your plants for medicinal use. And much more. The uses for herbs are limitless. They add amazing flavor to foods, they can make wonderful perfumes and lotions, and they can heal you of certain diseases. While herbal remedies should not completely replace your use of modern medicine, it can and should be used because sometimes it is the safer option. Herbs were on this planet long before modern medicine was. Some believe that there is a plant for every disease. Keeping your own medicine garden is a great way to care for yourself, keep yourself healthy, and make sure you're ready for any unforeseen illness. Plus, you have the added benefit of having delicious herbs on hand for whenever a recipe calls for it, and beautiful flowers filling your garden, balcony, or home.
