Foreword by Dave Asprey A breakthrough program for women to revive their lost energy and vitality developed by a leading biohacker and physician Inside of you there is a spark it s what animates you and without it you could not live This energy creation isn t mystical nor is it spiritual it is science We know from research that our cellular machinery transforms the food we eat and the air we breathe into the electricity that fuels us With the right lifestyle inputs we glow with energy but when the demands on our bodies exceed our capacity as is true for so many of us we become burned out mentally and physically Now in *The Spark Factor* Dr Molly Maloof shares a program uniquely tailored to the biology of women a plan that targets the mitochondria the power source of the cells As Dr Maloof shows the intense all or nothing approaches commonly used by biohackers to optimize health including sustained fasting ultra low carb diets and intense training can be harmful especially for women because they create excessive stress in an already stressed body which can make us tired weak

and prone to illness Dr Maloof's innovative program which has been used successfully by her patients offers lifestyle changes that target the unique biology of women and provide immediate and long term benefits Instead of denying our bodies we need to listen to what they are telling us Once we become aware of our physical needs we can give ourselves the resources to become more connected nourished safe and strong at both the micro and the macro level With cutting edge biohacking insights strategies for personalized nutrition hormonal health and stress management *The Spark Factor* is the book women have been waiting for to help them reclaim their vitality and achieve lasting health [New Scientist](#), 2003 **The Ecologist**, 2008 **Head Strong** Dave Asprey, 2017-04-04 From the creator of Bulletproof Coffee and author of the bestselling *The Bulletproof Diet* comes a revolutionary plan to upgrade your brainpower in two weeks or less For the last decade Silicon Valley entrepreneur Dave Asprey has worked with world renowned doctors and scientists to uncover the latest most innovative methods for making humans perform better a process known as biohacking In his first book *The Bulletproof Diet* he shared his biohacking tips for taking control of your own biology Now in *Head Strong* Asprey shows readers how to biohack their way to a sharper smarter faster more resilient brain Imagine feeling like your mind is operating at its clearest and sharpest and being able possibly for the first time in your life to do more in less time What it suddenly became easier to do the very hardest things you do Or if you could feel 100% confident about your intellect and never again fear being the person in the room who just isn't smart enough or can't remember something important How would you treat people if the mood swings short temper and food cravings that disrupt your day could simply disappear In *Head Strong* Asprey shows us that all of this is possible and more Using his simple lifestyle modifications or hacks to take advantage of how the structure of your brain works readers will learn how to take their mental performance to the next level Combining the latest findings in neuroscience and neurobiology with a hacker inspired get it done now perspective Asprey offers a program structured around key areas of brain performance that will help you Power the brain with exactly what it needs to perform at its best all day long Eliminate the sources of kryptonite both nutritional and environmental that make the brain slower Supercharge the cellular powerhouses of our brains the mitochondria to eliminate cravings and turn up mental focus Reverse inflammation to perform better right now then stay sharp and energized well into your golden years Promote neuron growth to enhance processing speed and reinforce new learning hotwiring your brain for success Asprey's easy to follow two week program offers a detailed plan to supercharge brain performance including which foods to eat and which ones to avoid how to incorporate the right kinds of physical activity into your day a detox protocol for your home and body meditation and breathing for performance recommended brain boosting supplements and how to adjust the lighting in your home and work space to give your brain the quality light it thrives on A better brain and a happier easier more productive life is within reach You just need to get *Head Strong* *Inventor of the Future* Alec Nevala-Lee, 2022-08-02 One of Esquire's 50 Best Biographies of All Time One of The Economist's Best Books of 2022 A New York Times Book Review Editors Choice
