Conference on Software Engineering Artificial Intelligence Networking and Parallel Distributed Computing SNPD2022 Summer which was held on July 4-6, 2022 at Kyoto City Japan. The aim of this conference was to bring together researchers and scientists, businessmen and entrepreneurs, teachers, engineers, computer users and students to discuss the numerous fields of computer science and to share their experiences and exchange new ideas and information in a meaningful way. Research results about all aspects, theory, applications and tools of computer and information science and to discuss the practical challenges encountered along the way and the solutions adopted to solve them. The conference organizers selected the best papers from those papers accepted for presentation at the workshop. The papers were chosen based on review scores submitted by members of the program committee and underwent further rigorous rounds of review. From this second round of review, 15 of the most promising papers are then published in this Springer SCI book and not the conference proceedings. We impatiently await the important contributions that we know these authors will bring to the field of computer and information science.

Metaverse Development Prasanna Bhattathiri, 2025-01-03. *Metaverse Development: A Step by Step Handbook* is a thought-provoking exploration of the intersection of technology, society and creativity. This book is essential for any creator or company venturing into the Metaverse. Shaped by individuals and inspired by unique social experiences, the Metaverse is still in its early stages. We delve into how this new world will capture our present moments and shape our future. The book examines whether the Metaverse will replace the internet or fade away, helping readers decipher both the current hype and potential seismic changes. We take an extended tour of the Next Internet, exploring proto-metaverses like Fortnite, Minecraft and Roblox. This book provides a comprehensive definition of the Metaverse, the technologies powering it and the necessary breakthroughs for its full realization. We address the governance challenges, the roles of Web3, blockchains and NFTs, and predict the future winners and losers in the Metaverse. The potential applications of the Metaverse are nearly limitless, transforming how we live, work and play. We also recognize the educational potential of virtual worlds, exploring platforms like Web 3D, MDV3D, ECODI and augmented reality. This book offers a comprehensive guide to understanding and leveraging the Metaverse for education and innovation.
