Tiger Tank:

Tigers I and II David Doyle,2019-11-28 Germany's Tiger tank whether in the form of the Tiger I or later Tiger II King Tiger was the most feared tank of WWII Despite production totaling fewer than 2 000 units its heavy armor its power and perhaps the even more powerful Nazi propaganda machine ensured that the Tiger remains well known over seven decades after last being on the battlefield Through more than 175 photos this volume chronicles the design development and deployment of this famed German tank Full color photographs of rare surviving examples from around the globe augment carefully selected war era photos in bringing this tank back to life Comprehensive tables reveal the details of performance and technical specifications of each variant A concise easy to read text and detailed photographic captions expose the secrets of this iconic tank Part of the Legends of Warfare series [Tiger Tanks at War](#) Michael Green,James Brown,2008-02-15 The first prototype for the Tiger tank was set to be ready for Hitler's birthday on April 20 1942 The Henschel Company competing with Porsche produced the superior model and by August of that year the formidable Tiger or Panzerkampfwagen VI Tiger Ausf H was in full production This book takes us behind the scenes with the Tiger tank reviewing the full history the design and mechanics and the mixed record of this machine which was designed to outgun its Russian counterparts Military writer Michael Green offers a close up account accompanied by photographs diagrams and maps of how the Tiger tank operated how it was armed and where it succeeded brilliantly as well as where it failed miserably His book fills a fascinating niche in the history of military technology and of the impact of technology on history itself *The Tiger Tank Story* Mark Healy,2010-04-22 The famous Tiger tanks of the German Panzer forces were only available at the hard pressed front in modest quantities but this tiny number forged a legend out of all proportion to its size This fascinating programme plots the history of its conception and evolution against the background of World War Two tank development Expert analysis is provided by tank and military historians David Fletcher and Professor John Erickson and also includes new footage of surviving Tiger tanks **How to Kill a Tiger Tank** Craig Moore,2021-12-02 When the Panzer VI Ausf E Tiger I tank first arrived on the battlefield it launched an Allied and Soviet intelligence race to discover everything they could about this new threat The British Army needed to know how to knock it out and then communicate their information to the troops that had to face this new German metal monster either by official means or via newspapers Using original official period documents from the Second World War *How to Kill a Tiger Tank Unpublished Scientific Reports from the Second World War* this is not a typical book on the Tiger tank It shows the reader what the British and Commonwealth forces knew about the Tiger I tank during the war and the results of scientific firing trials Unpublished and original documents discovered in different archives have been transcribed and reproduced along with existing photographs found in these secret reports These include top secret Bletchley Park Enigma intercepts of German messages which were decoded and translated before being sent to Prime Minister Winston Churchill One such intercept discovered in the archives shows the exact moment when Churchill became

aware of the existence of a heavy tank called the Tiger On 25 November 1942 he marked the intercept in his normal red pen and asked Field Marshal Alan Brooke Chief of the Imperial General Staff indicating the word Tiger in the message with CIGGS what are these **The Combat History of German Tiger Tank Battalion 503 in World War II** Franz-Wilhelm Lochmann, Alfred Rubbel, Richard Freiherr von Rosen, 2021-03-01 This book tells with firsthand accounts as well as numerous never before seen photographs the combat history of German Tiger Tank Battalion 503 the senior Tiger battalion of the German Army equipped with both the Tiger I and the King Tiger The unit saw action in the attempted relief of Stalingrad the tremendous tank engagements at Kursk and the bitter fighting to relieve German units encircled at the Tscherkassy Pocket It then defended against the Allies in Normandy in 1944 and ended the war with desperate fighting in Hungary and Austria

these heavy tanks would breakdown become immobilized in soft ground or be damaged by lucky hits on vulnerable points
