Time And Space A Basic Reader:

Time and Space, a Basic Reader Michael Connelly, Jean Sims, 1982-01-01 *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1977

Media Intertextualities Mie Hiramoto, 2012 This collection of critical essays originally published in *Pragmatics and Society* 1 2 2010 discusses how normative biases that shape our relation to the world are constructed through discursive practice in media discourse The intertextual perspective it adopts is crucial for our understanding of how media representations of speakers and languages shape many of our preconceptions of others Mediatization is inherently intertextual the very nature of this process involves extracting the speech behavior of particular speakers or groups from a highly specific context and refracting and reshaping it to be inserted in another stream of representation The notion of intertextuality becomes a useful concept for the linguistic anthropological study of media discourse in the context of modernity as it provides us with a tool for exploring the semiotic processes that underlie the way in which the media negotiate and reinscribe the complex relationships of identity that characterize late modern subjecthood

Information Security and Privacy Colin Boyd, Juan González Nieto, 2009-06-22 The 2009 Australasian Conference on Information Security and Privacy was the 14th in an annual series that started in 1996 Over the years ACISP has grown from a relatively small conference with a large proportion of papers coming from Australia into a truly international conference with an established reputation ACISP

2009 was held at Queensland University of Technology in Brisbane during July 1-3, 2009. This year there were 106 paper submissions and from those 30 papers were accepted for presentation but one was subsequently withdrawn. Authors of accepted papers came from 17 countries and 4 continents illustrating the international flavor of ACISP. We would like to extend our sincere thanks to all authors who submitted papers to ACISP 2009. The contributed papers were supplemented by two invited talks from eminent researchers in information security: Basie von Solms, University of Johannesburg, currently President of IFIP, raised the question of how well dressed is the information security king; L. Jean Camp, Indiana University, talked about how to harden the network from the friend within. We are grateful to both of them for sharing their extensive knowledge and setting challenging questions for the ACISP 2009 delegates. We were fortunate to have an energetic team of experts who formed the Program Committee. Their names may be found overleaf and we thank them warmly for their considerable efforts. This team was helped by an even larger number of individuals who reviewed papers in their particular areas of expertise:
