## **Under Compulsion:**

**Eudemian Ethics Books I, II, and VIII** Aristotle, 1992-11-05 Anyone seriously interested in Aristotle's moral philosophy must take full account of the Eudemian Ethics a work which has in the past been unduly neglected in favour of the better known Nicomachean Ethics The relation between the two treatises is now the subject of lively debate This volume contains a translation of three of the eight books of the Eudemian Ethics those that are likely to be of most interest to philosophers today together with a philosophical commentary on these books from a contemporary point of view Like the other volumes in the series it is intended to serve the needs of readers of Aristotle without a knowledge of Greek and the aim in the translation has been to give as accurate an idea as possible of Aristotle's text but for the benefit of those who are able to read the original there are notes on the Greek text used for problematic passages In preparing this new edition Michael Woods has made use of the much improved text of the Eudemian Ethics that has recently been published as an Oxford Classical Text and has taken into consideration recent philosophical work on Aristotle's ethics The Clarendon Aristotle Series is designed for both students and professionals It provides accurate translations of selected Aristotelian texts accompanied by incisive commentaries which focus on philosophical problems and issues The volumes in the series have been widely welcomed and favourably reviewed Important new titles are being added to the series and a number of well established volumes are being reissued with revisions and or supplementary material Introduction Translation Commentary Notes on the Text and Translation Select bibliography Glossary Index
