Ethel Carnie Holdsworth

Snow Cats:

Ultimate Cat: A Complete Guide to Breeds and Hybrids Leigh-Ann Andersen, 2016-07-31 The numerous cat breeds are both varied and mysterious. Most have tails, some do not. Some have curled ears, some have huge ears. Some have long hair, some have short, and some have no hair at all. Some have hair, but it's really no more than a little peach fuzz. But there are more than just physical differences between the breeds. Their personalities are just as vibrant, and each breed is not quite like the others. Some are chatty and friendly, others are aloof and circumspect. Some spend their days climbing door frames, others would rather lie about in the sun. These differences are fascinating to behold and helpful to all those interested in sharing their home with a cat. Found here are more than sixty of the most common breeds and hybrids from around the world.

It's Snowing Cats and Dogs Daniel Sarajan, 2014-02-21 Disaster strikes The Beach Pit caf. The generator is overheating, making the drinks too hot to drink and the inside of the caf hotter than a desert. After getting caught up in a giant snowball, Grumpy and Toby rock and roll their way towards The Beach Pit. Will it be a cool ride, or will they end up a couple of hot heads?

Macrocognition in Teams Dr C A P Smith, Dr Michael P Letsky, Dr Norman W Warner, Dr Stephen M Fiore, 2012-10-01 Team collaboration involves many operational tasks such as team decision making or course of action selection, developing shared understanding and intelligence analysis. These operational tasks must be performed in many situations, often under severe time pressure, with information and knowledge uncertainty, large amounts of dynamic information, and across different team characteristics. Recent research in this area has focused on various aspects of human collaborative decision making and the underlying cognitive processes, while describing those processes at different levels of detail, making it difficult to compare research results. The theoretical construct of macrocognition in teams was developed to facilitate cognitive research in team collaboration, which will enable a common level of understanding when defining, measuring, and discussing the cognitive processes in team collaboration. Macrocognition is defined as both the internalized and externalized mental processes employed by team members in complex, one-of-a-kind collaborative problem solving. Macrocognition in Teams provides readers with a greater understanding of the macrocognitive processes which support collaborative team activity, showcasing current research, theories, methodologies, and tools. It will be of direct relevance to academics, researchers, and practitioners interested in group, team, interaction, performance, development, and training.

Learning Skiing Katrin Barth, Hubert Brühl, Hubert Bruhl, 2004 This book is written for children just beginning to ski, and of course their parents anxious to support their child's enthusiasm. The little snowman and his friend the tiger Skitty offer comprehensible and humorous guidance for children's first attempts on skis, to successfully skiing downhill. A number of exercises safely lead to success, one step at a time. In addition, the children learn interesting facts about winter sports, snow equipment, a healthy lifestyle, and safety precautions. The many opportunities for colouring, in checking off and filling out, motivate and inspire children to become
