The Modeling:

The Practice of Enterprise Modeling Patrick van Bommel, Stijn Hoppenbrouwers, Sietse Overbeek, Joseph Barjis, 2010-11-03 This volume constitutes the proceedings of the Third IFIP WG 8.1 Working Conference on the Practice of Enterprise Modeling held in Delft The Netherlands during November 9-10 2010 The goal of the conference is both to foster a better understanding of the practice of enterprise modeling and to improve its theoretical foundations The 17 papers presented were carefully reviewed and selected from 44 submissions They reflect the trend for both practitioners and academics to look into domains and conceptualizations addressing dedicated business oriented topics like business intelligence or domain driven process families and thus reach beyond traditional information systems engineering

Mathematical Modeling in the Age of the Pandemic William P. Fox, 2021-06-09 One cannot watch or read about the news these days without hearing about the models for COVID 19 or the testing that must occur to approve vaccines or treatments for the disease The purpose of *Mathematical Modeling in the Age of a Pandemic* is to shed some light on the meaning and interpretations of many of the types of models that are or might be used in the presentation of analysis Understanding the concepts presented is essential in the entire modeling process of a pandemic From the virus itself and its infectious rates and deaths rates to explain the process for testing a vaccine or eventually a cure the author builds presents and shows model testing This book is an attempt based on available data to add some validity to the models developed and used showing how close to reality the models are to predicting results from previous pandemics such as the Spanish flu in 1918 and more recently the Hong Kong flu Then the author applies those same models to Italy New York City and the United States as a whole Modeling is a process It is essential to understand that there are many assumptions that go into the modeling of each type of model The assumptions influence the interpretation of the results Regardless of the modeling approach the results generally indicate approximately the same results This book reveals how these interesting results are obtained

Systems Engineering Using the DEJI Systems Model® Adedeji B. Badiru, 2022-08-29 While we need to work more with a systems approach there are few books that provide systems engineering theory and applications This book presents a comprehensive collection of systems engineering models Each of the models is fully covered with guidelines of how and why to use them along with case studies *Systems Engineering Using the DEJI Systems Model Evaluation Justification and Integration with Case Studies and Applications* provides systems integration as a unifying platform for systems of systems and presents a structured model for systems applications and explicit treatment of human in the loop systems It discusses systems design in detail and covers the justification methodologies along with examples Systems evaluation tools and techniques are also included with a discussion on how engineering education is playing a major role for systems advancement Practicing professionals as well as educational institutions governments businesses and industries will find this book of interest
