The Money Question During Reconstruction Walter T. K. Nugent, 1967 *Questions for America* Jack Reardon, David Wheat, 2025-04-30 To solve its multiple challenges post 2024 America must act with intelligence and wisdom which can only come from an active and well informed citizenry The issues that confront us post 2024 are profound climate change inequality artificial intelligence an unstable geopolitical global order existential threats from unfriendly nations just to name a few A democracy needs an educated society which requires not just information but knowledge and understanding As the dust settles from the 2024 presidential election we are faced with several philosophical issues How we act post 2024 will affect our America and our children s America Our future depends on the proactive action that we take now which is influenced by how much we understand today s issues This is a book about today s America

Mugwumps David M. Tucker, 1998 A spirited reevaluation of the public moralists who shaped public policy in nineteenth century America *Mugwumps Public Moralists of the Gilded Age* provides a refreshing look at a group of Americans whose importance to the history of our country has commonly been dismissed A public interest group that labeled the generation following the American Civil War as the Gilded Age Mugwumps were college educated individuals who lived the lessons of their moral philosophy Christian values republican virtue and classical liberalism Tracing Mugwump values back before the term was commonly used Tucker defines these liberals as benevolent and altruistic active campaigners against slavery and imperialism and for sound money lower tariffs and civil service reform The earliest Mugwumps took on the self assigned task of advocating public principles over private interests Evaluations of these public moralists during the 1950s and 1960s however did not paint the Mugwumps in so positive a light Awash in the popular New Deal public policies that advocated positive government intervention and regulation in the economy these studies dismissed Mugwump liberalism as outdated More specifically the reformers were criticized as being self interested failures Tucker obliges readers to look beyond such dismissals to the history and accomplishments of Mugwumps as a whole Unlike previous historians Tucker examines the antebellum roots of the Mugwumps and follows their ever increasing participation in American government throughout the nineteenth century Tucker portrays Mugwumps not as selfish agents of the middle class but as fascinating practitioners of eighteenth century public virtue and nineteenth century social science This book forcefully challenges previous studies on the Mugwumps and restores these public moralists to the mainstream of nineteenth century American history Their concerns for morality and free market economics are again fashionable in contemporary politics and deserving of fresh attention from both the general reader and the scholar

[Standards of Value](#) Michael Germana, 2009-10 In *Standards of Value* Michael Germana reveals how tectonic shifts in U S monetary policy from the Coinage Act of 1834 to the abolition of the domestic gold standard in 1933 34 correspond to strategic changes by American writers who renegotiated the value of racial difference Populating the pages of this bold and innovative study are authors as varied as Harriet Beecher Stowe George

Washington Cable Charles Chesnutt James Weldon Johnson Nella Larsen Jessie Redmon Fauset and Ralph Ellison all of whom drew analogies between the form Americans thought the nation's money should take and the form they thought race relations and the nation should take A cultural history of race organized around and enmeshed within the theories of literary and monetary value Standards of Value also recovers a rhetorical tradition in American culture whose echoes can be found in the visual and lyrical grammars of hip hop the paintings of John W Jones and Michael Ray Charles the cinematography of Spike Lee and many other contemporary forms and texts This reconsideration of American literature and cultural history has implications for how we value literary texts and how we read shifting standards of value In vivid prose Germana explains why dollars and cents appear where black and white bodies meet in American novels how U S monetary policy gave these symbols their cultural currency and why it matters for scholars of literary and cultural studies *The Impeachment and Trial of Andrew Johnson* Michael Les Benedict,1999 Probes into the efforts to remove Johnson from the presidency and details the results of the impeachment trial **By One Vote** Michael F. Holt,2008-10-15 With electoral votes disputed in three states a Democrat winning the popular vote and the Supreme Court stepping in to overrule Florida court decisions the presidential election of 1876 was an eerie precursor to that of 2000 Rutherford Hayes's defeat of Samuel Tilden has been dubbed the fraud of the century now one of America's preeminent political historians digs deeper to unravel its real significance This election saw the highest voter turnout of any in U S history a whopping 82 percent and also the narrowest margin of victory as a single electoral vote decided the outcome Michael Holt offers a fresh interpretation of this disputed election not merely to rehash claims of fraud but to explain why it was so close Examining the post Civil War political environment he particularly focuses on its most curious feature that Republicans were the only party in history to retain the presidency in the middle of a severe depression after decisively losing the preceding off year congressional elections Holt begins with the election of 1872 to demonstrate how competition for Liberal Republicans shaped the campaign strategies of both parties He stresses the critical but little noted importance of Colorado statehood in August which changed the size of the electoral vote majority needed to win and provides a new answer to the vexing question of why a Democratic controlled Congress had admitted Colorado in time to participate in the presidential election when without its votes Tilden would have won And he argues that the high voter turnout was attributable both to Republicans exploiting fears of ex Confederates recapturing control of the government and to long apathetic southern Democrats reacting to war memories and Reconstruction realities *By One Vote* shows how this election triggered a Republican revival and established the GOP as the Democrats major competitor Holt's compelling analysis of the dispute over electoral votes also explains why charges of Republican fraud are questionable and how Democrats were just as guilty of corruption A masterly retelling of this controversial episode Holt's study captures the mood of the country and testifies to the power that hatreds and fears aroused by the Civil War still exercised over the American people **Henry James** Ian F. A. Bell,1985-01-01 This collection of new essays relates James's

work to the political and social issues of his day making this outstanding literary figure accessible to a broader reading public Contributors include Richard Godden and Charles Swann Millicent Bell and Deborah Phillips **A Populist Assault** Pauline Adams, Emma S. Thornton, 1882 Sarah E Van De Vort Emery a Michigan woman transplanted from the Finger Lakes region of New York was for many years a voice for Populism in the late 19th century Emery was a woman who believed and acted on her beliefs that freedom and the flowering of the human potential should not give way to the demands of the money power

Two Thousand Questions and Answers about the War, 1918 The Accountant, 1877 *The rise and fall of nations, with portrayals of their great men and women* Josephus Nelson Larned, 1907 *The Japan Financial and Economic Monthly*, 1924 History of Alabama and Her People Albert Burton Moore, 1927 *The Medical circular [afterw.] The London medical press & circular [afterw.] The Medical press & circular*, 1879 **Outlook** Alfred Emanuel Smith, Francis Walton, 1914 **The Outlook**, 1919 The Roots of the Modern American Empire William Appleman Williams, 1969
