

THINK FEEL CARE

EXPLORING COMPLEXITY

Think

Choose a system that involves several people. Select one person from the system and ask:

What does this person do in the system? How do you know?

Feel

If you were this person, how would you feel? Why would you feel that way?

Care

If you were this person, what would you care about? What would be important to you?

To help children think about different perspectives, choose a different person from the system and ask the questions again.

To See To Feel To Care

Richard Bryant-Jefferies

To See To Feel To Care:

Mapping the Field Jane Martin, Marion Bowl, Gemma Banks, 2023-10-04 From its origins in the University of Birmingham's then Institute of Education in 1948 *Educational Review* has emerged as a leading international journal for generic educational research. Seventy-five years on *Mapping the Field* presents a detailed account of education theory and research policy and practice through the lens of key articles published in the journal over this timespan. Volume II opens with Part I a collection of articles examining teachers' job dissatisfaction and stress and the gendered composition of the teaching workforce. Articles in Part II trace a shift in academic focus from schools seen as families/communities to the parent-school relationship. The concepts of inclusion and equality and strategies for their fulfilment in education are interrogated in Part III. The volume concludes with Part IV in which diverse identities in the education field are represented. Curated and introduced by the editors, the articles included in both volumes of *Mapping the Field* represent a careful selection from the work of scholars whose ideas have been and continue to be influential in the field of education. Overall, this major text covers a wide range of topics and offers original insights into educational policy, provision, processes and practice from around the world.

Same Same but Different Marie Antoinette El-Helou, 2022-11-28 Have you ever wondered if there is more than meets the eye to mental illness than what the medical establishment offers? Have you ever wondered if maybe those voices could be real? Have you had strange phenomena happening to you making you wonder if you were crazy? The world is experiencing the biggest global shift ever known to mankind. Spiritual awakenings and psychic phenomena are becoming more common than ever before. The next step in our spiritual evolution is understanding the nature of the soul. Chances are you or someone close to you has been touched by mental health issues, whether you've been diagnosed or not, or have had great times of darkness and despair. Maybe you want to live a life of purpose and freedom and just can't get there. Perhaps you've felt crazy because you've had unusual experiences in your life, apparently unexplainable ones. Perhaps you have gut feelings, strange occurrences, and a pull to learn more about spiritual and esoteric subjects without knowing why. Perhaps you want to learn how to raise and use your intuition or what your purpose is here on this planet. Within these pages, Marie shares stories of her personal journey and channelled information and activations from spiritual and galactic guides she has grown to know and love. Readers are offered an experience of solace, self-understanding, and a deep integral shift, especially to those who have ever felt different to everybody else. The 12 keys chapters in this book offer an empathic way out of the mainstream medical views to a soul approach, also including a shamanic perspective. Each key has its own teaching and are designed to provide a deep intrapsychic activation and healing. Following over 15 years of research and experience, Marie brings a light-hearted, down-to-earth, and humorous multidimensional framework to how we view sanity. *Working Mother*, 1999-03 The magazine that helps career moms balance their personal and professional lives.
