The shift toward non-routine, knowledge-based work demands high levels of creativity, adaptability, and digital fluency. Higher education institutions play a pivotal role in preparing students for this new reality by offering opportunities to build and practice virtual teamwork skills. Equipping students with these competencies not only enhances their career readiness but also helps them contribute more effectively to innovative, distributed work environments. As the future of work becomes increasingly digital, fostering virtual collaboration skills is crucial for individual success and organizational sustainability. *Sustaining Creative Collaboration in Student Virtual Teams in Higher Education: Resources, Norms and Protocols, and Continual Assessment and Learning* provides an in-depth understanding of how to implement, sustain, and assess academic courses and business training experiences that can offer students and employees hands-on experiences to develop virtual teamwork skills. It seeks to nurture students' professional development by enhancing their creativity while working in virtual teams and to provide faculty with relevant knowledge, expertise, and case examples to assist them in implementing and assessing effective virtual team learning experiences in their courses. Covering topics such as topics, this book is an excellent resource for students, educators, researchers, academicians, educational leaders, instructional designers, technology instructors.
