Derrida's Social Ontology Ryan A. Gustafson, 2023-12-01 Derrida s Social Ontology Institutions in Deconstruction presents the first dedicated study of Jacques Derrida s philosophy of institutions While previous studies of Derrida s thought have considered his engagement with individual institutions from the university to literature law and psychoanalysis among others Derrida s Social Ontology offers the first attempt to reconstruct and defend the philosophical theory of institutions that underlies these engagements In so doing the book argues that the theme of the institution in Derrida s oeuvre offers the best throughline for understanding the substantively normative significance of

deconstruction as a philosophical practice arguing that Derrida is unique among so called postmodern thinkers in providing an account of the relationship between the historically contingent character of institutions and the normative entitlements that such entities make possible Specifically the book shows how Derrida accounts for this relationship in a way that leaves room for a notion of unconditional responsibility for the social and political world to the extent that the latter is structured by perfectible institutions In tracing the development of Derrida s account of this link between the historicity and normativity of institutional life from his early writings on the historicity of the institution of philosophy to his later critiques of practices of institutional cruelty like the death penalty Derrida s Social Ontology not only offers readers a new framework for making sense of the normative commitments that defined this philosopher s writings but will also establish the terms for putting his works into conversation with contemporary debates in social and political philosophy and critical theory more broadly

Mad Studies: The Basics Merrick Daniel Pilling,2025-05-19 Mad Studies The Basics provides an introductory account of a field that emerged from and must remain grounded within community knowledge activism and the perspectives of those who have experienced madness and mental health systems It is a concise text that introduces the field through an exploration of some origins of Mad Studies as well as two interrelated queries what does Mad Studies help us understand and what does Mad Studies help us do This exploration reveals that Mad Studies is an interdisciplinary intersectional and multi vocal field that demands different answers to the very meaning of the beliefs behaviours and bodymind experiences that are currently characterized as being indicative of mental illness At the heart of Mad Studies is a liberationist desire to resist transform and abolish the systems that create marginalization and implement responses to madness that are grounded in the collective knowledge of those deemed Mad This book shows that the contributions of Indigenous Black racialized queer and trans people must be understood as central to and already embedded within Mad Studies and activism rather than as add ons expansions or efforts to make Mad Studies more inclusive It will be of interest to all scholars and students of disability studies social work gender studies education health sciences sociology and psychology as well as practitioners in mental health care and those with lived experience of madness and mental health systems *Harper's Anthology for College Courses in Composition and Literature: Of education* Frederick Alexander Manchester,William Frederic Giese,1926 *The Classical Weekly*,1921 **Studies in Language and Literature** University of Minnesota,1919 **University of Illinois Studies in Language and Literature**,1925 **William Hazlitt, Essayist and Critic** William Hazlitt,1889 William Hazlett, Essayist and Critic William Hazlitt,1889 Helena Faucit (Lady Martin) Theodore Martin,1900 **Studies in Literature** Gilderoy Wells Griffin,1871 The Collected Works of William Hazlitt: The Round table.
