The Moderns John Freeman, 1917 **Some of the Moderns** Sir Frederick Wedmore, 1909 *The Inklings, the Victorians, and the Moderns* Christopher Butynskyi, 2020-01-28 In *The Inklings the Victorians and the Moderns* the author examines the dynamics of a small group of twentieth century traditionalists who reacted in opposition to the spirit of the intellectual movements of the modern age In particular he draws on the Inklings e g C S Lewis J R R Tolkien Christian humanists such as G K Chesterton and other proponents of the Great Books and classical liberal learning to outline a position that eschewed reactionary rejections of modern thought but sought to transcend its perceived limitations by asserting the continued value of myth religion liberal education and ancient texts They were more than instigators and wished to reconcile and translate conservative traditional ideas within a progressive modern scientific context The author magnifies the intellectual trends in modern Western thought in the twentieth century and provides the historical context for the resistance to the prominent and convincing tenets of modernity Given the myriad responses he focuses on a more conservative response to reductive definitions born out of well intentioned progressivism The author approaches the subject matter from an historical perspective but utilizes an interdisciplinary discourse to create a multi dimensional explanation of the intellectual atmosphere of the twentieth century [The Moderns](#) Jack Bilbo, 1945 **Adam Smith on the Ancients and the Moderns** Gloria Vivenza, 2024-03-29 The classics heavily influenced many aspects of European modern culture yet it is not easy to trace their intellectual power on any author In this volume Gloria Vivenza takes on the impressive task of examining how philosophy history literature politics and ethics all played a part in shaping Adam Smith s thought as a scholar philosopher and economist This book will be of interest to advanced students and researchers in the history of economic thought the history of philosophy moral philosophy political theory and the Enlightenment **Charlemagne, First of the Moderns** Charles Edward Russell, 1930 **Concerning the Unwritten History of the Modern Language Association of America ...** James Wilson Bright, 1903 **Publications of the Modern Language Association of America** Modern Language Association of America, 1922 Vols for 1921 1969 include annual bibliography called 1921 1955 American bibliography 1956 1963 Annual bibliography 1964 1968 MLA international bibliography [The Modern Review](#) Ramananda Chatterjee, 1917 Includes section Reviews and notices of books *Reflections on the Modern and the Global* Bruce Mazlish, 2017-09-18 Over the past five hundred years historians and other social scientists have perceived an extraordinary occurrence the transition from the Middle Ages via the Renaissance to modernity Equally remarkable has been the transition taking place in the last fifty years from modernity to globalization a period marked by increasing interdependency and interconnectivity as evidenced by events such as the advent of the computer Bruce Mazlish argues that in order to understand ourselves in the world today we need to know more about the nature of both concepts Mazlish discusses the transition in terms of reflections Rather than adding to the enormous amount of archival research that already exists he instead examines slices of modernity

the way of seeing the sense of self for example as if under a microscope He sees modernity as strongly marked by its insistence on freedom of political and religious thought and the rights of man later expanded to include women Such changes did not happen all at once but as a gradual development While some prefer to contemplate the transition from the modern to the global as a continuous seamless development Mazlish argues that post WWII developments are best understood in terms of a break or a rupture Illustrating that the process was further accelerated by the computer revolution and the launching of artificial satellites Mazlish places the events of 1989 in the framework of globalization He concludes by inquiring further into the significance of the transition from modernity to globalization and its impact upon thought and identity
