Biohacking, Bodies and Do-It-Yourself Mirjam Grewe-Salfeld, 2021-11-05 From self-help books and nootropics to self-tracking and home health tests to the tinkering with technology and biological particles, biohacking brings biology, medicine, and the material foundation of life into the sphere of do-it-yourself. This trend has the potential to fundamentally change people's relationship with their bodies and biology, but it also creates new cultural narratives of responsibility, authority, and differentiation. Covering a broad range of examples, this book explores practices and representations of biohacking in popular culture, discussing their ambiguous position between empowerment and requirement, promise and prescription.

Introduction to Contemporary Philosophy of Medicine James A. Marcum, 2025-12-01 Introduction to Contemporary Philosophy of Medicine delves into the varied philosophical perspectives that shape modern medicine and its practice. The book examines key frameworks such as the Analytic Philosophy of Medicine, Feminist and Gender Medicine, Evidence-Based Medicine, and Integrative Medicine, providing readers with a comprehensive overview of how these approaches influence clinical decisions and healthcare policies. Central philosophical concepts including causation, disease, and health are explored in depth, making this text an essential resource.

for students and healthcare professionals interested in the critical issues facing medicine today In addition to traditional perspectives the book discusses the roles of Digital Complementary and Alternative Medicines highlighting the increasingly diverse landscape of medical thought Rather than presenting a unified paradigm contemporary philosophy of medicine is shown to be an evolving and multifaceted discipline addressing complex challenges and proposing varied solutions With its thorough coverage and insightful analysis the book serves as a valuable guide for anyone seeking to better understand the philosophical debates shaping contemporary medical practice Introduces and analyzes the ontological and epistemological conceptual foundations of contemporary philosophy of medicine Critically reviews different philosophical approaches to contemporary medicine from analytical to phenomenological approaches Evaluates a variety of medical practices ranging from evidence based medicine to person centred medicine Provides an in depth handbook and guide to the current literature in contemporary philosophy of medicine Explores the future direction of philosophy of medicine

The Spark Factor Molly Maloof, 2023-01-31

Foreword by Dave Asprey A breakthrough program for women to revive their lost energy and vitality developed by a leading biohacker and physician Inside of you there is a spark it s what animates you and without it you could not live This energy creation isn t mystical nor is it spiritual it is science We know from research that our cellular machinery transforms the food we eat and the air we breathe into the electricity that fuels us With the right lifestyle inputs we glow with energy but when the demands on our bodies exceed our capacity as is true for so many of us we become burned out mentally and physically

Now in The Spark Factor Dr Molly Maloof shares a program uniquely tailored to the biology of women a plan that targets the mitochondria the power source of the cells As Dr Maloof shows the intense all or nothing approaches commonly used by biohackers to optimize health including sustained fasting ultra low carb diets and intense training can be harmful especially for women because they create excessive stress in an already stressed body which can make us tired weak and prone to illness Dr Maloof s innovative program which has been used successfully by her patients offers lifestyle changes that target the unique biology of women and provide immediate and long term benefits Instead of denying our bodies we need to listen to what they are telling us Once we become aware of our physical needs we can give ourselves the resources to become more connected nourished safe and strong at both the micro and the macro level With cutting edge biohacking insights strategies for personalized nutrition hormonal health and stress management The Spark Factor is the book women have been waiting for to help them reclaim their vitality and achieve lasting health
