[Raising Hell](#) Robert Masello,2014-07-01 An occultism reference chronicling the quest for metaphysical truth from astronomers to astrologers necromancers to sorcerers alchemists to prophets If the history of black magic and the occult reveals anything it is that the drive to marshal the unseen powers of the dark and bend them to mortal will is as old as mankind itself Men and women have believed in virtually every age and in every land that there is another world a world of spirits and souls angels and demons gods and monsters a world that might hold the answers to the great mysteries What is the meaning of life Do humans decide their own fate Is there a Heaven And perhaps more important is there a Hell As they sought the answers to these questions the occult pioneers often stumbled upon real and verifiable truths Here in one spellbinding volume is a history of the major occult arts necromancy sorcery astrology alchemy and prophecy as they have been practiced from ancient Babylon to the present day *Raising Hell* weaves history with mythology quotes anecdotes and illustrations to provide

a vivid chronicle of the evolution of the occult arts From the origins of the pentagram and the sacred circle to the incantations of necromancers to the prophecies of Nostradamus this definitive source offers a compelling look at the black arts and those who risked their lives and some say their souls to explore them The Best Books: Class A, Theology.
