**Going Digital: Shaping Policies, Improving Lives** OECD,2019-03-11 This report identifies seven policy dimensions that allow governments together with citizens firms and stakeholders to shape digital transformation to improve lives It also highlights key opportunities challenges and policies related to each dimension offers new insights evidence and analysis and provides recommendations for better policies in the digital age *Your Best Digital Life* Jonathan Garner, Menka Sanghvi,2025-04-15 Transform Your Relationship With Tech Without Breaking Things Off Completely It s no secret that we often use our tech mindlessly In fact digital innovations increasingly make it so that we barely need to think at all Streaming services tell us what to watch next Influencers tell us what to buy next The GPS tells us where to turn next But the more we allow algorithms apps and artificial intelligence to guide our behavior the less control we have over who we intend to be And because we ve made a habit out of relying on the supercomputer in our pocket or the helpful digital voice on the other end of our smart speaker we ve lost access to the skills we need to break the hold tech has over us Thankfully world leading digital habits experts Jonathan Garner and Menka Sanghvi have discovered a way to improve our relationship with digital technology that doesn t involve throwing your phone in a lake helping you use the latest tech without losing yourself In this groundbreaking book Garner and Sanghvi share their key principles that uncover the trick to going beyond digital detoxes the unlikely benefits of inconvenience and the secret of intentional habits Through a mix of storytelling and cutting edge insights from the fields of psychology neuroscience and mindfulness they introduce their unique M O R E Method guiding you through a series of practices that will build your mental muscles of observing reflecting and experimenting This book will reveal your digital blind spots and build positive digital habits so you can reconnect with what matters most to you Reimagine your distracting digital devices as tools for reclaiming your sanity time and relationships *Handbook of Blockchain, Digital Finance, and Inclusion, Volume 2* David Lee Kuo Chuen, Robert H. Deng,2017-08-16 Handbook of Blockchain Digital Finance and Inclusion Volume 2 ChinaTech Mobile Security and Distributed Ledger emphasizes technological developments that introduce the future of finance Descriptions of recent innovations lay the foundations for explorations of feasible solutions for banks and startups to grow The combination of studies on blockchain technologies and applications regional financial inclusion movements advances in Chinese finance and security issues delivers a grand perspective on both changing industries and lifestyles Written for students and practitioners it helps lead the way to future possibilities Explains the practical consequences of both technologies and economics to readers who want to learn about subjects related to their specialties Encompasses alternative finance financial inclusion impact investing decentralized consensus ledger and applied cryptography Provides the only advanced methodical summary of these subjects available today **Handbook of Mathematical and Digital Engineering Foundations for Artificial Intelligence** Adedeji B. Badiru, Olumuyiwa Asaolu,2023-06-29 Artificial intelligence AI and digital engineering have become prevalent in business industry government

and academia However the workforce still has a lot to learn on how to leverage them This handbook presents the preparatory and operational foundations for the efficacy applicability risk and how to take advantage of these tools and techniques Handbook of Mathematical and Digital Engineering Foundations for Artificial Intelligence A Systems Methodology provides a guide for using digital engineering platforms for advancing AI applications The book discusses an interface of education and research in the pursuit of AI developments and highlights the facilitation of advanced education through AI and digital engineering systems It presents an integration of soft and hard skills in developing and using AI and offers a rigorous systems approach to understanding and using AI This handbook will be the go to resource for practitioners and students on applying systems methodology to the body of knowledge of understanding embracing and using digital engineering tools and techniques The recent developments and emergence of Chatbots AI tools all have mathematical foundations for their efficacy Such AI tools include ChatGPT GPT 4 Bard Tidio Support Bot Kuki AI Companion Meena BlenderBot Rose AI Chatbot Replika AI Friend Eviebot and Tay This handbook highlights the importance of mathematical and digital foundations for AI developments The handbook will enhance the understanding and appreciation of readers about the prevailing wave of artificial intelligence products and thereby fitting the current market needs *100 Best Trends (2005)* George Ochoa, Melinda Corey, 2004-09-17 The 100 Best Trends 2005 provides readers with the first look on the most important trends currently shaping the future Today s business success depends on understanding everything affecting one s operating environment and customer base The 100 Best Trends 2005 covers arts and entertainment business and industry demographics health and medicine politics and more *The Digital Challenge for Libraries* Ralph Blanchard, 2005 Public and university libraries are at a crossroads hard pressed by competition from Internet search engines declining budgets and changes in popular culture Libraries must respond aggressively Otherwise they will be marginalized by the impact of digital technology on their traditional customer base Author Ralph Blanchard drawing on twenty years of experience as an information services entrepreneur argues that it is irresponsible for librarians to simply turn academic tasks over to search engines as many do Instead libraries should expand digital services and using the tactics and strategies of successful for profit information service businesses reconnect with their customers by promoting themselves as 21st Century information experts Topics in this wide ranging study include The library as a service business Change risk and unintended consequences The Internet search engine business model Problems with students using search engines The evolution of ambient information Music and information technology Millennials as library customers Hiring and training library information workers Push and viral marketing strategies for libraries The Digital Challenge for Libraries calls for new initiatives by librarians and for a rekindling of interest in the vital role libraries play in an informed prosperous and democratic society

**Digital Leadership** Manisha Singh, Renu Jangra, 2025-12-30 In today s rapidly evolving business landscape effective leadership is increasingly synonymous with adept digital strategy Digital Leadership Integrating Technology for

Organizational Success delves into the crucial intersection of leadership and technology offering a comprehensive guide for leaders navigating the complexities of the digital age This edited volume brings together insights from seasoned professionals and thought leaders presenting practical strategies and real world case studies that illuminate how leveraging technology can drive organizational excellence Unique to this book is its focus on the practical integration of digital tools and technologies across various industries Each chapter explores innovative approaches and successful implementations providing actionable insights that empower leaders to harness technology for sustainable growth and competitive advantage Whether addressing digital transformation cybersecurity or data analytics this book equips readers with the knowledge and tools needed to effectively lead their organizations into the future Digital Leadership meets a critical need in the industry by bridging the gap between theoretical discussions and practical application It serves as an indispensable resource for executives managers and aspiring leaders seeking to stay ahead in an increasingly digital first world where adaptability and strategic use of technology are paramount to organizational success

**Human Agency in a Digital World** Marcus Fontoura, 2025-12-23 This may be the first true AI era self help book not because we need help using technology but because we need help using it well It s about building the knowledge and the confidence to question to evaluate to choose Because understanding how algorithms work is the first step in making sure they work for us Human Agency in a Digital World is a book about reclaiming our role not as passengers but as pilots in the fast moving journey of technological change Written by a computer scientist who is also a father a teacher and a lifelong student of how things work this book is a deeply personal and accessible guide to the systems shaping our lives and how we might shape them back We are surrounded by digital agents They suggest the next song answer our questions sort our emails recommend what to watch and often invisibly shape what we think But what do we know about them And how much power do we really have to question understand or even redirect their impact In this book Marcus Fontoura explores the hidden architectures of modern life from social media and search engines to cloud computing AI and quantum technologies uncovering both how they work and what they mean Drawing from decades of experience building the backbone of the internet and cloud platforms he demystifies the core concepts that govern today s systems and offers readers a way to develop digital fluency without needing a computer science degree But this is not just a book about machines It s a book about people about how we use efficiency not just to optimize for speed or cost but to unlock creativity opportunity and well being With examples ranging from broken playlists to protein folding and reflections that move fluidly between systems thinking and everyday life Digital Agency asks us to consider a simple but profound question what do we want technology to do for us and what will we do with it in return

*Digital International Relations* Corneliu Bjola, Markus Kornprobst, 2023-11-03 This book analyses how digital transformation disrupts established patterns of world politics moving International Relations IR increasingly towards Digital International Relations This volume examines technological agential and ordering processes that explain this fundamental change The contributors

trace how digital disruption changes the international world we live in ranging from security to economics from human rights advocacy to deep fakes and from diplomacy to international law The book makes two sets of contributions First it shows that the ongoing digital revolution profoundly changes every major dimension of international politics Second focusing on the interplay of technology agency and order it provides a framework for explaining these changes The book also provides a map for adjusting the study of international politics to studying International Relations making a case for upgrading augmenting and rewiring the discipline Theory follows practice in International Relations but if the discipline wants to be able to meaningfully analyse the present and come up with plausible scenarios for the future it must not lag too far behind major transformations of the world that it studies This book facilitates that theoretical journey This book will be of much interest to students of cyber politics politics and technology and International Relations

**The Great Digital Transformation** D. K. Ghosh, 2004 With reference to advances in digital technology in various South Asian countries a study *Digital World Economy. An economic perspective on industry 4.0* Anton Nikitin, 2018-10-04 Seminar paper from the year 2018 in the subject Economics Innovation economics grade 1 3 University of Wuppertal Jean Monnet Chair for European Economic Integration language English abstract The elementary technology the Internet enabled the fourth industrial revolution It changed the way people work The collaboration in server clouds and the so called Internet of Things allows even machines to interact Many questions are still unsolved e g the key technologies or their impact on the economic growth of economics Nowadays the transformation process is ongoing while the impact of this technological change is still unclear The McKinsey consulting group estimates that just the internet accounts for 21 percent of the GDP growth in major economies over the past five years Furthermore researcher mention that the share of ICT capital is often underestimated In real terms evaluated in prices in 1995 the share of ICT was roughly twice as high because of the continuously falling prices for ICT technologies and services Fifteen years prior the landscape internet driven companies seemed to stop the growth path after the Dotcom Crash Before the expectations of immense productivity gains were higher than the possibilities of the technology Also the average employee was not ready to handle the challenges of digitalization robotic and the pace of technological change In 2017 digitalization and automatization literature provides a wide range of IT specific but also managerial specific guidance Available economic papers referring to industry 4 0 are comparatively few And if available then are more focused on the impact of ICT on economic growth This paper tries to fill the gap to the point of a political economic perspective on industry 4 0 The object of interest is particularly productivity changes caused through digitalization and automatization which can be summed in the main driving forces of industry 4 0 The initial point of the investigation is the theoretical framework of the Cobb Douglas Production Function It will be converted in an applied model form which could be tested with the EU KLEMS database To justify a claim of this kind growth accounting estimates are used The traditional neoclassical methodology determines a contribution to growth from an exogenous technological change in the Solow residual estimate of total factor
