Surgeons At War:

Desperate Surgery in the Pacific War Thomas Helling, M.D., 2017-01-25 Caring for the wounded in the World War II Pacific Theater posed serious challenges to doctors and surgeons The thick jungles remote atolls and heavily defended Japanese islands of the Pacific presented dangers to medical personnel never before encountered in modern warfare as did the devastating new kamikaze attacks Sophisticated treatments including complex surgery were by necessity far removed from the fighting requiring front line doctors to do the minimum often under fire to stabilize patients until they could be evacuated damage control it would later be called Navy doctors responsible for thousands of sailors aboard fleets in battle found caring for the wounded daunting or nearly impossible Yet to save lives medical resources had to be kept as close as possible to the action This book systematically details the efforts and innovations of the doctors and surgeons who worked to preserve life under extreme peril

War Doctor David Nott, 2019-02-21 For more than twenty five years David Nott has taken unpaid leave from his job as a general and vascular surgeon with the NHS to volunteer in some of the world's most dangerous war zones From Sarajevo under siege in 1993 to clandestine hospitals in rebel held eastern Aleppo he has carried out life saving operations and field surgery in the most challenging conditions and with none of the resources of a major London teaching hospital The conflicts he has worked in form a chronology of twenty first century combat Afghanistan Sierra Leone Liberia Darfur Congo Iraq Yemen Libya Gaza and Syria But he has also volunteered in areas blighted by natural disasters such as the earthquakes in Haiti and Nepal Driven both by compassion and passion the desire to help others and the thrill of extreme personal danger he is now widely acknowledged to be the most experienced trauma surgeon in the world But as time has gone on David Nott began to realize that flying into a catastrophe whether war or natural disaster was not enough Doctors on the ground needed to learn how to treat the appalling injuries that war inflicts upon its victims Since 2015 the foundation he set up with his wife Elly has disseminated the knowledge he has gained training other doctors in the art of saving lives threatened by bombs and bullets

War Doctor is his extraordinary story **Guthrie's War** Michael Crumplin,2010-08-19 The precepts laid down are the result of the experience acquired in the war in the Peninsula from the first battle of Rolia in 1808 to the last in Belgium of Waterloo in 1815 They have been the means of saving the lives and of relieving if not even of preventing the miseries of thousands of our fellow creatures throughout the civilized world George James Guthrie is one of the unsung heroes of the Peninsular War and Waterloo and of British military medicine He was a guiding light in surgery He was not only a soldier s surgeon and a hands on doctor he also set a precedent by keeping records and statistics of cases While the innovations in the medical services of the French Republic and Empire have been publicized a military surgeon of the caliber of Guthrie has been largely ignored by students of the period until now Michael Crumplin in this comprehensive and graphic study of this remarkable doctor follows him through his career in the field and recognizes his exceptional contribution to British military medicine and to Wellington s army **Surgery in War** Alfred John Hull,1916 A Regimental Surgeon in War and Prison Robert Valentine Dolbey,1917 *Roster of All Regimental Surgeons and Assistant Surgeons in the Late War* Newton Allen Strait,1882 *Report on the Surgical Cases Noted in the South African War, 1899-1902* William Flack Stevenson,1905 **A Surgeon in Combat** William V.
