Rosicrucian Christianity Max Heindel,1909 The Brahmavâdin ,1906 **Christian Thought** ,1889 *Prophets and Prottons* Benjamin E. Zeller,2010-03-29 By the twentieth century science had become so important that religious traditions had to respond to it Emerging religions still led by a living founder to guide them responded with a clarity and focus that illuminates other larger more established religions understandings of science The Hare Krishnas the Unification Church and Heaven s Gate each found distinct ways to incorporate major findings of modern American science understanding it as central to their wider theological and social agendas In tracing the development of these new religious movements viewpoints on science during each movement s founding period we can discern how their views on science were crafted over time These NRMs shed light on how religious groups new old alternative or mainstream could respond to the tremendous growth of power and prestige of science in late twentieth century America In this engrossing book Zeller carefully shows that religious groups had several methods of creatively responding to science and that the often assumed conflict based model of science vs religion must be replaced by a more nuanced understanding of how religions operate in our modern scientific world *The Magic of Truth* Farah Dally,2014-11-10 Questions of truth have occupied philosophers scientists and theologians throughout human history What is truth Does it exist How do we define truth Who determines what is true and what is not The Magic of Truth defends the relativity of truth by examining its role in literature the arts and science as well as in our own lives and traditions The product of intensive research on the idea of truth and the secret meaning it holds Farah Dally argues that no field of study can progress without calling into question the traditional view of truth as a clear objective image **Everybody's Magazine** ,1906 The Churchman ,1920 *Mind* ,1881 A quarterly review of philosophy The China Review, Or, Notes and Queries on the Far East ,1880 The China Review, Or, Notes and Queries on the Far East Nicholas Belfield Dennys,Ernest John Eitel,William C.
